

PART 1 - GENERAL

1.1 RELATED WORK

1. Waste Management and Disposal: Section 01 74 21.

1.2 DEFINITIONS

1. Hazardous Material: Product, substance, or organism that is used for its original purpose; and that is either dangerous goods or a material that may cause adverse impact to the environment or adversely affect health of persons, animals, or plant life when released into the environment.

1.3 FIRES

1. Fires and burning of rubbish on site not permitted.

2. HAZARDOUS MATERIAL HANDLING

3. Store and handle hazardous materials in accordance with applicable federal and provincial laws, regulations, codes and guidelines. Store in location that will prevent spillage into the environment
4. Label containers to WHMIS requirements and keep MSDS data sheets on site for all hazardous materials.
5. Maintain inventory of hazardous materials and hazardous waste stored on site. List items by product name, quantity and date when storage began.
6. Store and handle flammable and combustible materials in accordance with National Fire Code.
7. Transport hazardous materials in accordance with federal Transportation of Dangerous Goods Regulations and applicable Provincial regulations.

1.4 DISPOSAL OF WASTES

1. Do not bury rubbish and waste materials on site. Dispose in accordance with project waste management requirements as specified in Division 01 Section Construction/Demolition Waste Management and Disposal.
2. Do not dispose of hazardous waste or volatile materials, such as mineral spirits, paints, thinners, oil or fuel into waterways, storm or sanitary sewers or waste landfill sites.
3. Dispose of hazardous waste in accordance with applicable federal and provincial laws, regulations, codes and guidelines.

1.5 DRAINAGE

1. Provide temporary drainage and pumping as necessary to keep excavations and site free from water.
2. Do not pump water containing suspended materials into waterways, sewer or drainage systems.
3. Control disposal or runoff of water containing suspended materials or other harmful substances in accordance with governing regulations and requirements.

4. Provide control devices such as filter fabrics, sediment traps and settling ponds to control drainage and prevent erosion of adjacent lands. Maintain in good order for duration of work.

1.6 SITE AND PLANT PROTECTION

1. Protect trees and plants on site and adjacent properties where indicated.
2. Wrap in burlap, trees and shrubs adjacent to construction work, storage areas and trucking lanes, and encase with protective wood framework from grade level to height of 2 m.
3. Protect roots of designated trees to dripline during excavation and site grading to prevent disturbance or damage. Avoid unnecessary traffic, dumping and storage of materials over root zones.
4. Minimize stripping of topsoil and vegetation.
5. Restrict tree removal to areas indicated or designated by Departmental Representative.

1.7 WORK ADJACENT TO WATERWAYS

1. Do not operate construction equipment in waterways.
2. Do not use waterway beds for borrow material.
3. Do not dump excavated fill, waste material or debris in waterways.
4. At borrow sites, design and construct temporary crossings to minimize erosion to waterways in strict conformance with provincial and federal environmental regulations.
5. Do not skid logs or construction materials across waterways.
6. Avoid indicated spawning beds when constructing temporary crossings of waterways.
7. Do not blast under water or 100 m of spawning beds.
8. Do not refuel any type of equipment within 100 meters of a water body. Maintain equipment in good working condition with no fluid leaks, loose hoses or fittings.

1.8 POLLUTION CONTROL

1. Maintain temporary erosion and pollution control features installed under this contract.
2. Control emissions from equipment and plant to local authorities emission requirements.
3. Prevent sandblasting and other extraneous materials from contaminating air beyond application area, by providing temporary enclosures.
4. Cover or wet down dry materials and rubbish to prevent blowing dust and debris. Provide dust control for temporary roads and around entire construction site.
5. Have appropriate emergency spill response equipment and rapid clean-up kit on site located adjacent to hazardous materials storage area. Provide personal protective equipment required for clean-up.

6. Report, spills of petroleum and other hazardous materials as well as accidents having potential of polluting the environment to Federal and Provincial Department of the Environment.
 1. Notify Departmental Representative and submit a written spill report to Departmental Representative within 24 hours of occurrence.

END OF SECTION 01 35 43
