Amendment number 002 is raised to:

1) Provide the following information:

Question 1) Is this unit going to be a self-powered system, or will it be running off the PTO of the unit towing it?

Response 1) It will not be a self-powered unit. It will be towed behind a farm tractor and will run off the PTO (1000 RPM).

Question 2) What unit will be towing the Vacuum Liquid Manure Transfer Tanker (i.e. Model Number and Brand Name)?

Response 2) Currently, it is either a Case MXM 155 or Case Maxxum 140 PRO, but could be any 125+ HP tractor in future.

Question 3) If the unit is to be self-powered what type of system would you like to power the components on the Vacuum Liquid Manure Transfer Tanker(i.e. Diesel or Gas)?

Response 3) N/A

Question 4) Is the Vacuum Liquid Manure Transfer Tanker going to be road legal?

Response 4) It's not expected to be, unless there is a need to move to another site as a slow moving farm vehicle.

All other terms and conditions remain unchanged.
