This Tender Amendment No. Three (3) is raised to include the following Addendum No. Three (3).

The following Addendum to the tender is effective immediately. This addendum shall form part of the contract documents.

All other terms and conditions remain the same.

#### Addendum No. 3

### 1. QUESTION AND ANSWER

**Q1** Is the customer willing to accept a hot formed grade steel (CSA G40.21 - 44W) as an equivalent to the "C.R. steel plate" specified on drawing MC-17606?

**A1** Yes, we will accept it.

**Q2** Is the customer willing to accept an additional 10.00 mm diameter hole in the end of the main body plate for a plug weld to prevent separation of the components?

**A2** Yes we will accept it provided it is filled in & the surface is ground flush

**Q3** Does the customer require the T-Nut welds, existing plug weld, and additional plug weld (if approved) to be ground flush with the material surfaces?

**A3** The welds don't need to be grinded down. However, if a 10.00 mm hole is produced in the main plate as requested in question #2, we will require that it is filled back in and that the surface is ground flush.
