## **Part 1. Interpretation**

- 1.1** Elections Canada hereby amends in accordance with this amendment the Request for Proposal (RFP) bearing number ECLP-RFP-14-0630 and dated November 3, 2014. This amendment hereby forms part of the RFP.
- 1.2** Unless defined herein or unless the context otherwise requires, all of the words and phrases defined in the RFP and used in this amendment shall have the same meanings assigned to them in the RFP.

## **Part 2. Questions and Answers**

The following question(s) have been asked in response to the RFP and Elections Canada hereby answers as follows:

### **2.1 Question No. 7**

Question:

In amendment 1 you estimated the weight of the stake to be 30 grams; however our measurement of the sample shows 160 grams. Would you please confirm if the physical characteristics of your sample can be used as an acceptable base for your requirement?

Answer:

The weight of the sample support measuring 10'' x 30'' is actually 160 grams (0.16 kg). An error occurred in the conversion from kilograms to grams. A 10'' x 35'' support should weigh 300 grams at the most.
