Amendment 002 to Request for Proposal (RFP) 31184-141251/A which closes on December 15, 2015 at 2:00 PM EST is raised to:

Incorporate into the solicitation the following questions and answers, as provided by the Technical Authority at National Research Council Canada.

QUESTION 1:

Regarding the above mentioned request for proposal for Lifting Module and System, please consider the following question:

The requirement #6 is asking for a "modular design, lifting cylinder must disconnect from wheeled cart".

Our solution has a different design but the same functionality. In our product, each cylinder has its own wheels instead of having one wheeled cart to carry each cylinder.

All other mandatory requirements are respected.

Is this alternate solution acceptable?

ANSWER:

No. The alternate solution is not acceptable as there is limited space where these jacks will be used.

All other terms and conditions of the Request for Proposal remain unchanged.
