Solicitation amendment no 002 is issued for the purpose of providing answers submitted to the Contracting Authority:

Question 1:

Reference Specification item HD-02 Fairleads. Can you provide the size of the deck inserts under the fairleads?

Answer 1:

The dimensions can only be derived by using drawing 95004-2AF provided to bidders. Based on this drawing and frame spacing it is estimated that the two mid-ships insert plates are 800mm x 500mm, and the two stern are 900mm x 600mm.

Question 2:

Reference Specification item E-04 Flying Bridge Bench. Can you clarify what you're looking for in 2" soft rubber padding? What type of covering is requested?

Answer 2:

The exact type of rubber padding and bench covering is not specifically described. It is expected that the contractor will supply materials that are typical for this type of installation and environmental conditions. The 2" soft rubber padding shall be of the type would be typically used for upholstering bench seating and a resistant vinyl covering will be acceptable.

Question 3:

Reference specification item HD-05. The specification refers to the use of Intersheen 665. A check with the local International Paint Representative has determined that this is not a valid product. Could you clarify?

Answer 4:

This specification item is amended to delete all mention of Intersheen 579 and Intersheen 665. These are to be substituted with Interthane 990.
