This Solicitation Amendment No. five (5) is raised to include the following addendum no.5.

The following addendum to the tender documents is effective immediately. This addendum shall form part of the contract documents.

All other terms and conditions remain the same.

Addendum 5

1. **SPECIFICATION**

.1 REPLACE

Section 35 20 23, Paragraph 1.17.1 Pre-dredge hydrographic survey of October 23, 2014 is shown on the Plan. Channel alignment may be reassessed at time of mobilization.

.2 REPLACE

Section 35 20 23, Paragraph 3.1.2 Use Global Positioning System (GPS), differential corrected, instrumentation valid at 1.0 metre accuracy. Record position of pins in UTM co-ordinates. At the earliest opportunity, forward these to PWGSC Departmental Representative for verification. The contractor is responsible to ensure GPS instrumentation is verified for accuracy every three months.

2. **CLARIFICATION**

.1 Disposal at Sea permit under Canadian Environment Protection Act is under review for dredging and disposal of materials from interior and exterior sections, up to 25,000 cubic metres place measure. The permit is to be valid before April 15, 2015.

.2 Section 01 35 44 Paragraph 9.5 Do not use beaches, dunes and other natural previously undisturbed areas of the site to conduct work unless specifically approved by the Departmental Representative. Last year, the Contractor obtained approval to float the pipeline over the wetted portion of the beach adjacent to the Gully, only after inspection and verification the work as proposed would have no impact to species at risk.
