

Question 1:

Under the “Tasks and Deliverables” Task 1, it states that the primary source of info for the case studies will be interviews with the housing provider, as well as websites where appropriate and CMHC admin data. There is no requirement for travel to the regions to undertake the case studies.

Under 4.1.2 Pricing Proposal, “travel estimates” are referenced. Please clarify whether there is a requirement for travel involved in the case studies.

Response:

Submissions may propose the intention to travel or conduct the case study interviews as they deem appropriate. If proponents decide to travel, the price submitted must incorporate all costs, inclusive of any travel-related expenses.
