Part 2. Questions and Answers

The following question(s) have been asked in response to the RFP and Elections Canada hereby answers as follows:

2.1 Question No. 11

Question:

For the packaging, can we ship in a “gaylord” box 48 inches X 48 inches (that is the size of a skid), there would be 200 packages of 25 H-Frames tied together with metal wire to minimize the cost of handling and transportation.

Answer:

Each box must contain only 25 frames. Furthermore, the size of the skid must be 48 inches X 42 inches as per specifications. Therefore, your box would overlap the skid by 6 inches.
