This Solicitation Amendment Number 9 is raised to include the following **Addendum No. 9.**

The following Addendum to the tender documents is effective immediately. This Addendum shall form part of the contract documents.

All other terms and conditions remain the same.

Addendum No. 9

1. QUESTION AND ANSWER

Q1: Is a building permit necessary for this project? I'm aware that it is mentioned in the specifications, but some municipalities do not require building permits for Public Works jobs. Does Public Works usually decide if the permit is necessary or does the Municipality decide? If it is up to the Municipality, do you have the contact information of someone that I could speak with there?

A1: Public Works and Government Services Canada's position on building permits is that construction on Federal lands to not require a municipal building permit. The Contractor may perform off site activities which will require a permit.
