Amendment #1

Please note the following answers/responses to bidder questions:

- 1.- You require the CSA Standard SPE-1000-09, do you accept the CE and UL certification as equivalent ?
- 2.- You require the training by a technician? Is someone from our manufacturer accepted?
- 3.- You do not mention the size of the cabinet... are you looking for a single or double cabinet?
- 4.- Can we submit pricing for the different size of cabinet?
- 5.- You do not mention the quality of the Stainless steel you require?

Question 1 – As per Canadian code, must be minimum CSA or ULC approved. CE and UL certification is not acceptable.

Question 2 – That accreditation is just for a certified technician from the respective manufacturer to properly instruct our employees on the appropriate operation of the equipment. Please disregard the “ECLS” component of the requirement.

Question 3 – We only require a single cabinet per location. Minimum 27 cubic feet capacity
Interior

Width - minimum 45 inches, maximum 50 inches

Depth – minimum 27 inches, maximum 32 inches

Height – minimum 43 inches, maximum 48 inches

Exterior

Width – minimum 45 inches, maximum 50 inches

Depth – minimum 27 inches, maximum 33 inches

Height – minimum 60 inches, maximum 67 inches

Question 4 – Absolutely, submit pricing for different sizes of cabinet.

Question 5 – Stainless steel minimum: 304, 14 gauge, solid steel. Must be rust proof and leak proof.

All other terms and conditions remain unchanged.
