2. Statement of Work

The Contractor must perform the Work in accordance with the Statement of Work at Annex "A".

PART 2 - BIDDER INSTRUCTIONS

1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the Standard Acquisition Clauses and Conditions Manual issued by Public Works and Government Services Canada (PWGSC). The Manual is available on the PWGSC Website:
<http://sacc.pwgsc.gc.ca/sacc/index-e.jsp>.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2014-09-25) Standard Instructions - Goods or Services, are incorporated by reference into and form part of the bid solicitation.

2. Submission of Bids

Bids must be submitted by the date, time and place indicated on page 1 of the bid solicitation.

Due to the nature of the bid solicitation, bids transmitted by facsimile to Parks Canada will **not** be accepted.

3. Enquiries - Bid Solicitation

All enquiries must be submitted to the Contracting Authority no later than five (5) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

4. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in British Columbia.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

PART 3 - BID PREPARATION INSTRUCTIONS

1. Bid Preparation Instructions

Bidders must provide copies of their bid in separately bound sections as follows:

Section I: Technical Bid (1 copy)

Section II: Financial Bid (1 copy)

Prices must not appear in any other section of the bid except in the Financial Bid.

Canada requests bidders to follow the format instructions described below in the preparation of their bid.

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponding to the bid solicitation

Section I: Technical Bid

In their technical bid, bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

Section II: Financial Bid

Bidders must submit their financial bid in accordance with the Basis of Payment. The total amount of Goods and Services Tax (GST) or Harmonized Sales Tax (HST) is to be shown separately, if applicable.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

1. Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria specified below.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

All bids must be completed in full and provide all of the information requested in the bid solicitation to enable full and complete evaluation.

2. Basis of Selection

1 To be declared responsive, a bid must:

- (a) comply with all the requirements of the bid solicitation;
- (b) meet all mandatory technical evaluation criteria; and
- (c) obtain a minimum of 70 of the required points for the technical evaluation criteria which are subject to point rating.

2 Bids not meeting (a) or (b) or (c) will be declared non responsive.
The responsive bid with lowest aggregate bid price will be recommended for award.

PART 6 - RESULTING CONTRACT CLAUSES

1. Security Requirement

There is no security requirement associated with the requirement.

2. Statement of Work

The Contractor must perform the Work in accordance with the Statement of Work at Annex "A".

3. Standard Clauses and Conditions

All clauses and conditions identified in the Contract by number, date and title are set out in the Standard Acquisition Clauses and Conditions Manual issued by Public Works and Government Services Canada (PWGSC). 11. Insurance

The Contractor is responsible for deciding if insurance coverage is necessary to fulfill its obligation under the Contract and to ensure compliance with any applicable law. Any insurance acquired or maintained by the Contractor is at its own expense and for its own benefit and protection. It does not release the Contractor from or reduce its liability under the Contract.

Annex A

Scope of Work

Solid Waste Services and Day Use Area Cleaning Services Kootenay National Park, British Columbia

1. General Description

This contract is for the collection and disposal of municipal solid waste and for cleaning of day use areas for Kootenay National Park, British Columbia. Specifically the services to be provided are:

- collection of solid waste at locations/facilities identified in the attached annex entitled Solid Waste and Cleaning Location and Pick-up Schedule, Kootenay National Park
- litter picking and clean up around non-commercial garbage containers.
- shoveling of snow away from non-commercial garbage containers to make them safely accessible.
- periodic inspection and minor maintenance of garbage bins.
- periodic sanitization of garbage bins.
- cleaning of washrooms, outhouses, kitchen shelters, fire pits/boxes/stoves and tables, litter picking at day use areas identified on the attached annex entitled "Solid Waste and Cleaning Location and Pick-up Schedule, Kootenay National Park.

Approximately 300 tonnes of solid waste is collected annually in the Kootenay National Park. Once collected, the solid waste is hauled to the Windermere landfill located approximately 20 to 30 kms south of the Radium west gate. Parks Canada is responsible for tipping fees at the Windermere landfill. The Contractor should make themselves familiar with the operation, hours of operation and any other requirements by the Windermere landfill for solid waste disposal at this facility.

Solid waste collection is required on a seven day a week basis year round although not necessarily at each location. Exceptions to this apply to Christmas, Christmas Eve, New Years Day, Boxing Day and any other statutory holiday. In these cases, solid waste must be collected at the heaviest locations in such a manner as to fulfill the standards identified herein.

Cleaning of day use areas is required on a year round basis at some day use area locations and seasonally at other day use area locations. For seasonal definitions, the following dates are generally used. These may change slightly depending on weather conditions and facility open/close dates:

Summer - May 15th to October 1st

Fall Shoulder - October 1st to November 15th or until facilities are snowed in

Winter - November 15th to April 1st or until the snow melts

Spring Shoulder - April 1st to May 15th

"On-call" locations must be serviced within 24 hours of notification, 48 hours in winter. On-call locations are those that require service on a less than weekly basis.

2. Contractor's Responsibilities

The Contractor is responsible for providing all labour, material, supplies and equipment required to perform the work, except as otherwise indicated under Parks Canada's Responsibilities.

2.1 Occupational Certification

The Contractor is responsible for:

- ensuring all its' staff are legally certified by law to drive and/or operate the equipment relating to solid waste collection and disposal. This, at a minimum, requires a valid provincial driver's license with the appropriate class and certifications for the equipment being operated.
- performing the work in accordance with the Occupational Health and Safety Act.

- ensuring all its' staff have training as specified by Occupational Health and Safety for their area of operation and will include training in workplace hazardous materials and transportation of dangerous goods, where applicable.
- providing documentation regarding the above noted to the Parks Canada Representative as requested.

2.2 Vehicles

The Contractor shall:

- ensure that garbage trucks have an on board hydraulic system and are compatible with these units, as most garbage bins are hydraulic operated Haul All equipment using canola oil.
- use only Canola oil in the operation of the bins.
- ensure vehicles and equipment relating to solid waste collection or the movement of solid waste containers are maintained in a clean and mechanically sound state. Clean means no buildup of dirt or grease on the interior or exterior of the vehicle. Mechanically sound is as defined per federal or provincial laws, acts and regulations. As a minimum, the vehicle garbage container component shall be washed and disinfected twice per year.
- be responsible for insuring its' equipment against all risks or accidental loss or damage.
- ensure each truck has a valid provincial vehicle registration or equivalent permit and a current Commercial Vehicle Inspection Certificate Decal. The decal shall be displayed on the vehicle at all times.
- maintain each truck to the minimum standard established by the commercial vehicle inspection. If, in the opinion of the Parks Canada Representative, the truck is not in a satisfactory mechanical or safe condition, it shall be removed from the contract area until the necessary repairs have been made.
- ensure that if a truck has broken down for more than 72 hours, a replacement truck is leased or rented to continue the pick- up schedule as required.
- ensure each truck engaged in the works is assigned a unique number that is prominently displayed on the truck, for the duration of the contract. The doors of each truck shall prominently display the Contractor's company name or logo and phone number.
- ensure that no advertising, stickers, bumper stickers or other communications are added to any vehicle engaged in the work, except when approved in writing by the Parks Canada representative.
- ensure that vehicles that cross provincial boundaries carry or have permits to meet the requirements of each respective province.

2.3 Pesticide and Herbicide or Other Chemical Use

The Contractor shall ensure that only chemicals and cleaning agents approved by the Parks Canada Representative are used.

2.4 Enclosures/Containers and Surrounding Area

The Contractor shall:

- be responsible for the care of all garbage and recycling containers owned by Parks Canada or other private owners.
- ensure all 4 yard solid waste containers are mechanically emptied completely as per the pick-up schedule.
- ensure bins are left empty, washed and disinfected within ten (10) days after the closing date of each facility.
- ensure one and two baggers, recycle bins and cans garbage bags must be replaced as per the pickup schedule.
- ensure (one and two baggers, recycle bins and cans) are odour free and sanitary and do not attract bears or other wildlife.

- except for commercial bins, ensure the area around the garbage container (defined as within ten (10) meters), is maintained free from all litter, debris and garbage. Commercial operators are responsible for litter pick up around their bins, except for litter that the Contractor has caused. In this case, the Contractor is responsible for its pick up.
- after any snowfall, shovel snow away from garbage containers and apply sand at the time of a collection visit, so as to ensure safe access to the container.
- ensure vehicles are dumped at the end of the day.
- as a minimum, wash and disinfect bins twice annually and on average every six (6) months. Discharge to the ground within the National Park is not permitted.
- inspect all garbage containers and infrastructure during the collection visit to ensure they are functioning properly. The Contractor shall report any major repairs required or malfunctioning components to the Parks Canada Representative within 24 hours of inspection.
- at a minimum monthly, or more frequently as required, ensure all hinges and moving parts are adjusted and lubricated and minor repairs such as tightening/replacing screws and bolts, repair of hydraulic leaks, etc. are performed.
- maintain a record of repairs performed and submit the record to the Parks Canada Representative on a monthly basis, including nil reports.
- when requested by the Parks Canada Representative, assist in the lifting of bins when major repairs or the moving of bins is required.
- ensure solid waste bins or containers are only moved with the written consent of the owner.
- attend periodic meetings as scheduled by the Parks Canada Representative to review work plans and address concerns and problems.

2.5 Noise Control

The Contractor shall ensure that, in urban locations, such as town sites, outlying commercial accommodation and campgrounds, no equipment is operated between 9:00 p.m. and 7:00 a.m., except as required to respond to emergencies or approved special events.

2.6 Collection, Storage and Disposal of Hazardous Material
