Bidders continue entering their pricing/cumulative pricing on the spec items with the intention of getting their bid as close to \$11,850,000 (without exceeding), and no less than \$11,250,000. If the bidder bids a firm Price on all 48 Work Items with a maximum total of 480 points, a total Firm Price less than \$ 11,250,000 will be accepted..

(2) Skipping an entry of pricing/ cumulative pricing in the sequence will result in the bid being non responsive.

Bidders are to stop entering pricing/cumulative pricing information in appendix 2 at the point where their bid gets as close to the exposed budget (without exceeding). Bidders are reminded not to enter uncharacteristically low bid amounts on spec items that they do not intend on completing during the refit to acquire more cumulative points. The 1205 Acceptance process will remove two times the value to complete the spec items from the Contract Value (not two times the bid value).

(6) At the point where the bidder stops bidding, the cumulative bid price (not exceeding \$11,850,000.00) is to be entered into Annex H1 - Price for Evaluation, Item A Known Work.
