This amendment (4) seeks to answer questions from vendors.

Q8-Can you please let us know the height of the ceiling where the machine will be located.

A8- The ceiling height is 8ft, however the doorways are smaller.

Q9-Is there a loading dock on the site?

A9- There is a loading dock on site, very nearby the location of the room.

Q10- Is a fork lift available there at the destination of the machine?

A10- Our facilities use pump jacks which are rated for 5500lbs capacity.

Q11- In Amendment 3 it is stated that you need the machine to conform to ITSG-06 CSE , articles 3.5, 3.6, 3.7. It is however stated in Annex A that the machine should be RCMP approved. Can you please confirm that conforming to ITSG-06 CSE , articles 3.5, 3.6, 3.7, is enough (that means the device is NSA approved, the disintegrated particles' final sizes will be 2 or 3 mm) is enough and thus the machine will not need to be RCMP approved.

A11- There is a requirement that the machine be RCMP approved.

Q12- Does the equipment have to be new.

A12- Yes
