This Revision to a Request for a Standing Offer No. Three (3) is being issued to include the following addendum no. 3. .

The following addendum to the solicitation documents is effective immediately. This addendum shall form part of the Standing Offer Agreement.

All other terms and conditions remain the same.

Addendum No. 3.

1. Questions and Answers

Q1. Is it the lowest bidder for the complete package who will be awarded the contract or is it the lowest bidder(s) by specific zones who will be awarded the contracts?

A1. Separate Standing Offer Agreements will be awarded for each specific Unit Price Schedule.

Q2. Once the project is underway, is it continuous work or is there down time between the different zones ?

A2. Pending on the need, call ups are made upon request and the need to open up channels. This is a request from the client.

Q3. Can you clarify the unit of measure and quantities in the bid form. For example, Group A, Dredging per day dredging production 100 cmpm/h, per day (measure unit), 150 (estimated quantity). If my understanding is right this means that an 8 hour day will result in 800 cubic meters dredged and there are 150 days planned, the end result is 120 000 cubic meters of material dredged only for Group A.

A3. As per Section 01 11 00 – General 2.6.

Q4. This seems to be too much material. Is there a standard number of hours per day?

A4. As per Section 01 11 00 – General 2.6 and Section 35 20 23 – Measurement Procedures 1.3.3.1
