Question #1

- **Item 7 Rower** - Should the maximum user weight read 500lbs instead of 300lbs?

Answer #1 The maximum is listed at 300 lbs but the industry standard for commercial grade is now 500 lbs. Maximum weight should be 500 lbs.

Question #2

- **Item 8 Power Rack** - Are non-metal, protective coverings required on the "adjustable bar hooks" and "adjustable safety bars"? Are any options required (Land mine, lower band pegs?)

Answer#2 Non-metal, protective coverings are not required on the adjustable bar hooks and adjustable safety bars. No other options required.

Question #3

- **Item 9 Platform** - Is a platform ramp required on the insert platform?

Answer#3 Yes, a platform ramp is required on the insert platform.

Question #4

- **Items 10-13 (Olympic Flat, Incline, Decline, Shoulder Benches)** - Are non-metal protective wear guards required on the bar rests/uprights to protect the bar from metal surfaces?

Answer #4

No, non-metal protective wear guards are not required on the bar rest/uprights.

Question #5

Item 8 - Power rack is asking for adjustable bar rest . One of the designs that I have, has multiple rest bar locations that obviously are not adjustable , as the user will be able to rest the bar in multiple locations depending on the height of the user. Would this be acceptable for your client.

Answer#5

The bar has to adjust to multiple locations. If the bar rest can be set at different locations then it is adjustable.

Question #6

Item 13 - Olympic shoulder bench is asking for adjustable seat, our design , because of the multiple locations where you can rest the bar , think that adjusting the seat is not necessary . This does not have adjustable seat. Will your client accept this.

Answer #6

The adjustable seat is necessary.

Question #7**Item #14** dumbbell rack;

Will CFB Kingston accept 3 tier rack instead of 2 tiers.

Answer#7

No, CFB Kingston needs a 2 tier rack.

Delete Annex A - Statment of Requirement**Item #7**

Rower
Self-Powered
UL/CSA or CE certification.
Maximum User weight of 300lbs
Regulatory Approvals ETL, CE, EN957
Frame must be made of Metal and/or Plastic.
Integrated castor wheels

Frames must be minimum 11 gauge steel. Must be powder coated in an industry standard colour (i.e. white; black or grey frame with black upholstery)
