This amendment has been raised to respond to the following questions and make the following revisions:

Questions

Question 1: Is there any asbestos present in the subject building and/or affected by this project?

Answer 1: No, there is no asbestos present. The US GSA (General Services Administration) did a full sampling of all materials a couple of years ago and none was found.

Question 2: Is there a Hazmat Survey available for review?

Answer 2: No. The only Hazmat that would be on site are cleaning products and petroleum used for the equipment on site.
