This amendment is raised to clarify the following question from a potential bidder:

Question 1:

Would all five boiler rooms be able to be worked on at the same time?

Answer 1:

Regarding Boiler Replacement schedule: Only one building may be completed at a time. Commissioning of each system will occur separately when the system is fully installed in each building. There could be some overlap in preparatory work, but Two systems or more, under construction/replacement, at the same time is not allowed.
