QUESTIONS AND ANSWERS

Question # 2:

Reference is being made to Annex A , 7. TECHNICAL SPECIFICATIONS , items 8 & 9:

8. The HSM Hardware must be USB 2.0 certified or greater.
9. The HSM Hardware must draw its power from USB port on server. This is a requirement because of the limited power available in a deployed kit and server rack on a ship”

Question is that it seems you may be looking for a small portable HSM as in a USB personal token: Can you confirm if this is the case?

Answer # 2:

DND is looking for a small portable HSM that is connected by and powered by the USB port. It can be in an USB personal form factor however it is not mandatory. The bidder's HSM must meet all other requirements.
