TITLE: RMSO - Imaging Consumables

SEE ATTACHED

This amendment 006 is raised to incorporate the following information into Solicitation No. EZ107-120002/E.

- 1) Questions and Answers
- 2) Provide a revised Annex H - Electronic Financial Offer Template (EFOT)

QUESTIONS AND ANSWERS

Q1. As we will be quoting different prices in each region, if our prices are either aberrant or outside the minimum and maximum thresholds for one OEM in a given region, would this disqualify our other OEM bids in that same region even though our prices are sustainable and within the thresholds for the other OEMs? In other words, would we ONLY be disqualified for the OEM for which our prices were disqualified in that given region?

A1. Each region will be evaluated separately. After the financial evaluation, if your prices are either aberrant or outside the minimum and maximum thresholds for one imaging hardware manufacturer and not meet a minimum of 90% (round down to the nearest number) of all OEM items for that individual imaging hardware manufacturer in a given region, your bid will be non-compliant for that individual imaging hardware manufacturer in that given region.

Q2. Can PWGSC tell us how we can provide printed copies of the workbook that will be legible and useful?

A2. Offerors can print the workbook on 8.5" X 14" paper. The revised Annex H – Electronic Financial Offer Template (EFOT) allows Offeror to print copies of the workbook more legible. Offeror must submit one hard copy of the worksheet for each individual imaging hardware manufacturer with their bids.

Q3. Concerning the requirement for submitting a separate spreadsheet for each region being quoted, does this mean that we are to submit a separate electronic workbook for each region?

A3. Offerors must submit a separate spreadsheet for each individual imaging hardware manufacturer. If quoting on all regions and the price is the same in all regions, complete Column V for OEM Consumables and Column AF for Remanufactured Consumables. If quoting on other nine (9) regions and the price is different in each region, complete Column M to Column U for OEM Consumables and Column W to Column AE for Remanufactured Consumables.

Q4. Please confirm manufacturers can propose the same toner cartridge as outlined in the Excel however the OEM Part Number may contain another letter in the part number. For example, the CE263A would be bid as CE263AC.

A4. If manufacturers found errors on OEM part number in Annex H, please notified PWGSC as soon as possible. We will issue an amendment to correct the part number. Offerors should quote in accordance to OEM Part Number listed in the worksheet.

Q5. Reference: C2.1 Sustainable Pricing

Many manufacturers use pricing rebates for authorized partners in situations where customers receive special pricing. These rebates are standard business practice for manufacturers and are not based on sales volume or volume commitments and co-operative advertising programs. Please confirm rebates in this case are compliant with the sustainable pricing terms and conditions.

A5. As long as the Offeror can generate greater than zero profit and provide price support for the item, it is considered as sustainable pricing.

Q6. Reference the EFOT. As each spreadsheet is protected from adding any additional information and there is no place to add our vendor/supplier name, would PWGSC please let us know how we are to add our name for each manufacturer spreadsheet that we are bidding?

A6. In the revised Annex H, Offeror can input the vendor name in the custom header for each individual imaging hardware manufacturer. In MS Excel 2007, on the **Page Layout** tab, in the Page Setup group, click the **Dialog Box Launcher** next to **Page Setup**. On the **Header/Footer tab**, click **Custom Header**. Click in the **Left Section** and type your company name.
