This amendment 002 is raised to provide a response to a supplier enquiry. The question and response are provided as follows:

=====

QUESTION: In the tender, Section 3.1.4.c says the Covert Cameras must: Be provided with an enclosure chosen from the three (3) written design proposals for different mounting types (wall or ceiling) in different working environment. Only one (1) proposal will be chosen for a covert camera, but each camera provided as part of this requirement may be provided with a different enclosure design.

Where are the enclosures coming from? Should we be bidding these? If yes, is there more information about the enclosures? If no, do we assume that if the camera are the correct dimensions they will fit?

RESPONSE: Please refer to updated Annex A dated 2015-03-16 for current wording of 3.1.4 c.

The enclosures are provided by the contractor as part of the monitoring suite in accordance with Annex A. To be considered technically compliant, bids are required to meet the technical requirements outlined in Annex A and include the information as required in Annex D. To be considered technically compliant, bids are required to meet the technical requirements outlined in Annex A

=====

All other clauses and conditions remain unchanged.
