## Amendment 002

## **Question 6**

Regarding the submission of financial statements as a requisite to the ATP submission: Would all partners providing technology solutions to the ATP also be required to provide financial statements or is it solely incumbent on the ATP to provide this information?

## **Answer 6**

The financial statements should not be included in the suppliers' bid. They may be requested by the contracting authority at a later date.

As indicated in the RFP under Part 6 – Financial Requirements:

- If the bidder is a joint venture, the financial information requested must be provided by each member of the joint venture.
- If the bidder is a subsidiary of another company, part of the financial information requested must be provided by the parent company.

## **Question 7**

If the Data Management Platform houses the information outside of Canada however abides by all Canadian policies and regulations as they pertain to digital data storage and encryption standards, does the rating differ? Will it be evaluated on security of data or location or both?

## **Answer 7**

There is no rated requirement regarding the security or location of data storage in the RFP. However, it is a mandatory requirement that the bidder should store all data related to the contract in Canada.

In Part 5 – Certifications, 5.1.3.7 Computing Infrastructure Capabilities, the bidder must certify that: “all data collected and stored as part of the Contract will remain in Canada and reside on computing infrastructure located in Canada, only accessible in Canada by authorized users.”
