This amendment 004 to the request for proposal is to answer questions from the industry.

**QUESTION 7**

Annex 'A' section 1.2 - Does PWGSC only accept empirical SM estimation models, or will they also accept physical SM estimation models? EOMAP can provide both and we expect the Physical Model to be the most suitable for this project.

**ANSWER 7**

The contractor will have to use an empirical approach for SM estimation.

**QUESTION 8**

Is there an exact time frame we should use when setting the pricing? The tender states (page 16) that we should consider pricing the monitoring as only a range of 15-20 weeks. When setting the pricing should we supply the 15 week cost as well as the 20 week cost? This is very important for the pricing calculations.

**ANSWER 8**

It is not possible to accurately determine the exact duration of the work since the dredging rate may vary over time. However, the duration of the work has no influence on costs, since the bidder must submit a fixed price for the acquisition of a minimum quantity of images (see section 2.1 of Appendix B) and additional images will be paid firm unit prices (Section 3 of Annex B) based on the exact duration of the work.

**All other terms and conditions remain the same.**
