This amendment is raised for the following reasons;

1. To provide an updated installment of Annex B - Basis of Payment V.3. You MUST submit your bid using this version. If you submit your bid using an older version, your bid will be declared non-responsive and will not be evaluated.

2. To change the closing date to April 20, 2015. No further extensions are expected.

3. To provide 3 example sheets to demonstrate the bidding format.

4. To answer the following questions:

4a.) Q: 8E001 black forest ham 2 x 4kg, added notes state sliced, this pack size would be whole hams, sliced would be 6 x 500gm or 3 x 1 kg please confirm which required?

A: The product required is deli meats; ships prefer the sliced, but the package size cannot be modified. Whole hams are not appropriate to non-land based galleys therefore we suggest the 3x1kg for the sliced product be the item that is acceptable.

4b.) Q: 10D009 Chicken breast , notes 6oz nat non pump sknls bnls, should this one be the chicken breast split(bone in) as 10D015 chicken breast boneless skinless, no additional notes.

A: This is a duplicate item. If you notice duplicate items, please note they are duplicates in your vendor description column. You can still put in the same price as you did for the first line item. This will ensure prices are not left blank and will not affect your over number of items you have bid on.

4c.) 10B010 chicken fingers breaded, notes states pub style (this typically is a formed product, love me tender is a solid muscle, which is required?

A: Clarification was provided using the products that are listed as acceptable under this unitrak code, which encompassed the 'love me tender' as well as the pub style. The vendor will choose which product that they would feel meets this expanded definition and would also comply with FQS standards for this product.

4D.) 12B005 and 12B013 what is the difference both are whole pork loin boneless?

A: Pack size is the only difference: 12B013 is 6 x 4 Kg pack size and 12B005 is 1 x 5 Kg.

4e.) 26E006 sausage debrazini pack size 2 x 2.27 is this kg?

A: Yes, 2x2.27Kg is the pack size. Though not in the case description, kg is represented in the unit of supply column.
