This document includes questions received from potential bidders with the corresponding answers and an amendment.

Question 23

R1.3 - Application/Software Architect - Level 3 states:

The Bidder should demonstrate that the proposed resource has experience developing, implementing and deploying applications using:

- MS Team Foundation;
- Buildit or its equivalent MS Build/TFS Continuous Integration;
- Ndoc or its equivalent Visual Studio Generate XML Documentation File;
- Rational XDE or its equivalent and Enterprise UML modeller such as Rational Rose;
- FXCop; and
- CodeSmith

Considering the Crown has already allowed additional tools to be substituted for Buildit and NDoc, would they also allow equivalent tools for Source Code Generation such as T4 (part of Visual Studio) to be substituted for CodeSmith?

Answer 23

Canada has reviewed the request, however the requirement remains unchanged.

Question 24

Due to the changes in the grids in Solicitation Amendment # 4 that will require substantial work, or may result in the replacement of candidates, we request a one week extension to the due date.

Answer 24

An extension to the closing date is granted, see amendment below.
