Summary:

- Introductions
- Contracting review of the ITT
 - Tender close is April 13th at 2pm, bids to be submitted in Winnipeg
 - All questions must be submitted by April 8th
- General review of the technical requirements (refer to Specifications)
- Group Tour of the site

Questions and Answers:**Q1:** Will the holes be cemented later?**A1:** The holes will remain open for this contract. A lockable cap is required as per the specifications.**Q2:** What is the number of holes to be drilled?**A2:** A total of 10 holes. 3 at A2-01 stope location and 7 at B1-43 stope location.**Q3:** Does the public have access to the sites? Is the consultant planning on working day shifts only? Will the consultant consider working double shifts?**A3:** The hole locations are on Giant Mine property but public could access the holes near the B1-43 stope area from the new highway. The current plan is for day shift only but double shift would be considered if requested.**Q4:** Do any of the holes have any issues? Water? Located along hills?**A4:** No**Q5:** Can we haul material if required?**A5:** Yes. However, any berms located along the pit edge must not be impacted. If requested, PWGSC will review potential to adjust hole collars.**Q6:** Are any of the holes located along the road?

A6: Yes, as outlined in the specifications two holes will require permit to work in the right-o-way of the new highway.

Q7: Are any of the holes near arsenic?

A7: No.

Q8: Can the sequencing of the holes be revised?

A8: Yes, the sequencing of the holes can be adjusted to suit the contractors work plan.
