

Question 1

Please confirm that the Mandatory Site Visit date is April 30th. This seems very late relative to the bid closing date of May 6th. Can we make arrangements to inspect the site prior to the April 30th date?

Answer 1

The mandatory site visit is on April 30th at 10:00 PDT.

Proponents should be able to submit a bid based on the specifications and drawings already provided. The mandatory site meeting will clarify any questions proponents may have; these questions can be asked, and answered, beforehand as well.
