**Amendment 003 is created to answer questions from bidders as follows:**

**Q1:** Under Form A - Substantiation of technical compliance form- Line No. A 1.5 The printer must support paper sizes from a minimum of 5.5" x 8.5" up to 12.6" x 18.5" sheets.

Will IRB consider reducing the specification to 5.5" x 8.5" up to 12.76" x 18.23" which would still allow 12" x 18" full bleed work to be produced which is typically the reason for using paper sizes over 12" x 18" ?

**A1:** The specification of 12.6" remains unchanged but 18.5" is reduced to 18.23". See Revisions to the RFP below.

**Q2:** Under Form A - Substantiation of technical compliance form- Line No. A 1.12 The printer must have a minimum 300 sheet document feeder.

Will IRB consider a 100 sheet document feeder with the option of batch print which in return would allow IRB a virtually unlimited number of scanned documents in a single scanning session?

Alternately if the above is deemed unacceptable, would IRB consider reducing the sheet capacity on the document feeder from 300 sheets to 100 sheets for this requirement?

If the specification remains unchanged IRB will limit the number of vendors that will be able to submit compliant bids, thus not being able to secure best value.

**A2:** No, we will not consider this request due to the volumes the machine will be putting out on a daily basis and the forecasted increase workload for the next few years, that 100 sheet document feeder will not suffice.

**Q3:** Under Form A- Substantiation of technical compliance form- Line No. A 1.15 The printer must support 4800 X 600 dpi

Will IRB consider 1200 x 1200 x 8bit output with 256 shades of grey scale, as most if not all production print devices require a RIP to process the print file which limits the dpi of the printable file to 1200 x 1200. Thereby not realizing any benefit from higher dpi specifications?

**A3:** Yes, we will consider this request. See Revisions to the RFP below.

### **Revisions to the RFP**

#### **1) At Annex A and Form A**

**Delete:**

A1.5 - The printer must support paper sizes from a minimum of 5.5"x 8.5" up to 12.6" x 18.5" sheets.

**Insert:**

A1.5a - The printer must support a minimum paper size of 5.5"x 8.5".

A1.5b - The printer must support a maximum paper size of 12.6" x 18.23" sheets.

#### **2) At Annex A and Form A**

**Delete:**

A1.15 - The printer must support 4800 x 600 dpi

**Insert:**

A1.15 - The printer must support 4800 x 600 dpi or 1200 x 1200 dpi.

**ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.**
