1. QUESTIONS ET RÉPONSES

Q1. Will security (commissionaires) be required for this project?

R1. Commissionaires will only be required for access to the building.

Q2. Has a hazardous material inspection been done on the existing penthouses, during the site visit I noticed old plaster that perhaps resembled asbestos?

R2. According to the Asbestos Management Plan for the GICB, which was completed in April 2004 there is no asbestos found in either penthouse. It is noted that the walls and ceilings were not opened so there is a possibility. Should asbestos be found, PWGSC should be notified and work will be completed in accordance with the applicable asbestos management practices.

Q3. Drawing A-001 there is a note "roof edge required" please clarify what is required?

R3. The note on drawing A-001 indicates "roof edge protection"

Q4. Is a second site visit possible because of the weather conditions our time on the roof was limited to 10 minutes and we could not take all of the measurements required?

R4. There will be no additional site visit offered at this time

2. LISTE DES PARTICIPANTS - VISITE DES LIEUX
