Amendment 003 is raised to respond to Bidders questions.

**Q9.** It looks like the amount of GSM supplied is enough to modify 20,000 TW and 20,000 AR coveralls; can we assume a 50/50 ratio of TW and AR coveralls will be shipped?

**A9.** Yes.

**Q10.** What is the estimated split/ratio of Operational and Training coveralls to be sent for modification on this order?

**A10.** The AR are all Operational (except for a few that will need to be converted into training, less than 100), the TW are approx. 50/50.

**Q11.** What is the estimated number of Operational coveralls requiring the training patch and has this material been factored into the GSM that will be supplied or do we assume we have to purchase this material at an additional expense for our bid?

**A11.** GSM material will be provided for all modification, no need to purchase any material, only MAX qty are provided for national security purposes, as for the conversion from operational to training, it will need to be evaluated as they come.

**Q12.** Of the worn coveralls, will the operational ones go back out as operational or do they require conversion to training?

**A12.** Only coveralls that are in the original bag are considered as Operational, anything else is training.
