ADDENDUM # 1

Re: Request for Proposals T8080-140448- P. Engineer to handle submissions on bulk storage facilities.

**Demande de propositions n° Request for Proposal T8080-140448 –
Ingénieur (ing.) reconnue qui proposera des recommandations sur des demandes d'autorisation de construire et d'exploiter des sites de transbordement et d'entreposage**

Question 1:

Question – Does the work performed for private and public clients prohibit a company from applying for this position as well?

Question - Est-ce qu'une firme travaillant sur de tels projets pour d'autres clients privés ou publics peut quand même offrir ses services pour cet appel d'offre?

Response – Up to two contracts will be awarded, one as a main contract and one for when the vendor is involved in a bulk storage project that has been submitted to Transport Canada.

Réponse - Deux contrats seront octroyés; un contrat principal et un autre contrat pour pallier à l'éventualité que la firme choisie serait impliquée dans un projet de sites de transbordement et d'entreposage soumis à Transports Canada.

Tenderers are to acknowledge this Addendum by signing in the space provide below and enclosing a copy of this document with their proposal.

All other terms and conditions of the Request for Proposals remain unchanged.

Yours truly,
Peggy Miller
