**Questions and Answers # 2**

**Q13**

We are in process of working on our bid for this subject but have encountered a unique challenge. Item R5 on page 15 requires medical evidence of the amputee role players' amputations, such as a medical certificate. Our attempt to obtain this evidence has met with serious resistance. The amputees (both Canadian and US) feel insulted by this request. Would it be acceptable to submit their resumes with their description of the amputations?

**A13**

Yes. Amputees résumés with the description of the amputations would be alternatively accepted.

**Q14**

In reference to Answer 2 of the previous questions and Answer document, Can you confirm the mailing address for bid submission?

**A14**
