

Amendment No. 04

Subject: Request for proposal: NRCan-PR# 5000015590
Canadian Alternative Fuel Vehicle, Infrastructure and Technology Suppliers

This Amendment is raised in response to questions from potential bidders as follows:

7. Should 'out-of-pocket' costs for purchase of services from third party be included in per diem rates or identified separately?

ANS. The Per Diem rate is all inclusive for expenses incurred in the provision of the service or services.

8. Please explain why NRCan allocates a large number of points (up to 20) for a skill that does not seem required to meet the project objectives. We are referring to page 24 "Experience in conducting economic or financial analysis".

ANS. The evaluation criteria were decided by a committee, and it was determined that this criteria was relevant to the work to be provided in the contract.

All other terms and conditions remains unchanged.
