Amendment No. 001

This amendment is being raised to provide responses to Requests for Clarification.

REQUESTS FOR CLARIFICATION

Q 1 - Our firm does not supply 'surveying services' but does supply designating and marking of underground utilities to surveying firms. Can you tell me if there is a requirement in the above referenced RFP to capture the routing and/or position of buried utilities as part of this program?

A 1 – The RFP is for surveying services. Any need to coordinate underground service locates during the course of the survey will be the responsibility of the successful Survey firm.

Q 2 - What is the anticipated award date?

A 2 – We are anticipating to award this Contract by June to July of 2015.

Q 3 - Can we use and have ATV access to all properties?

A 3 – No. Some of the properties are farms and vineyards that may have restrictions on the type of vehicles allowed on the property and where those vehicles can travel. Although there may be limited ATV access to some of the sites, an arrangement would have to be made with Public Works and Government Services Canada (PWGSC), St. Lawrence Seaway Management Corporation (SLSMC) and the current tenant prior to going on to the property. Under no circumstance should a bidder contact the tenants prior to Contract Award.

Q 4 - Do we need to give owner(s) notification prior to performing services?

A 4 –PWGSC through SLSMC will be coordinating the notification to the current tenants by way of a formal letter. As a courtesy, the field representatives of the successful firm should contact the onsite tenants immediately prior to entering the property. Under no circumstance should a bidder contact the tenants prior to Contract Award.
