

BRIEF

The Cod Knotts Quarry has been developed to ensure all rock extraction is as neatly as possible. Benching and rock face slopes have been predetermined to maintain consistency.

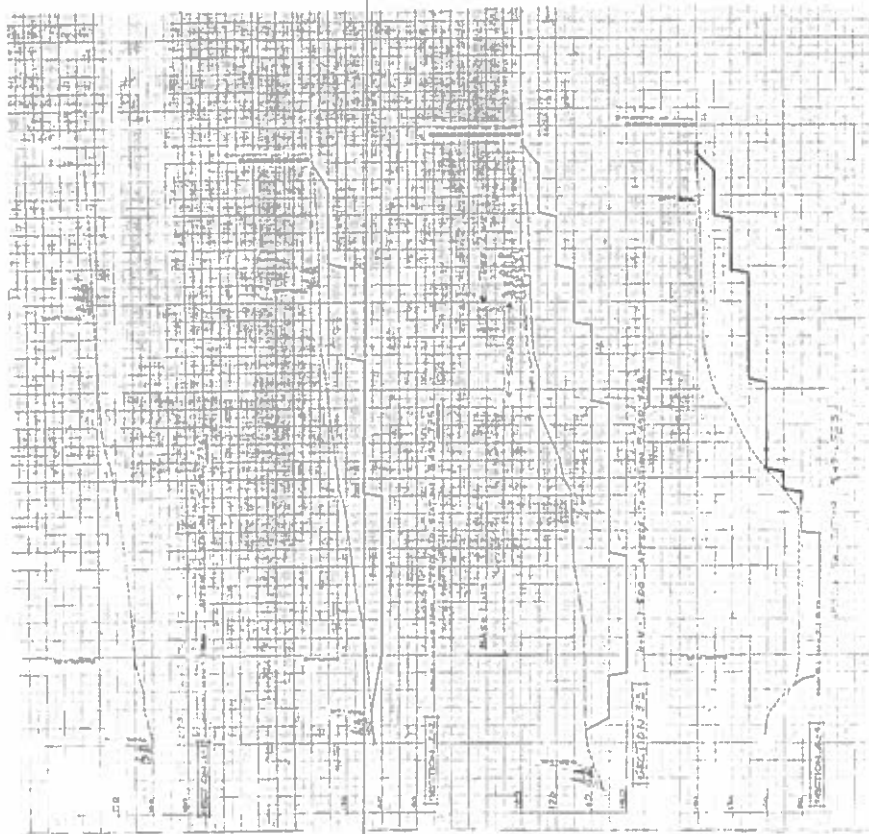

The attached drawings indicate a general layout of the work completed in the past.

The intention of this contract is to produce rock by extending the benching and slopes in a Southerly or Southwesterly direction as per the drawing noted 2015 Extraction.

A new survey is being completed and the drawing will be provided prior to the start of any work.
