**Question 1:**

In Mandatory Corporate Requirement 1, the RFP only asks that “the Bidder must have access to a Communication Security Establishment Canada (CSEC) approved TEMPEST test facility.”

If the facility that the bidder has access to does not belong to the bidder, the Bidder recommends to PWGSC that the bidder be required to provide evidence stating that they will be able to access the facility as needed to ensure that work can be performed in a timely manner to meet the obligations of the expected tasks.

**Answer 1:**

This requirement specifically requires documented proof as stated in Mandatory Corporate Criteria #1.

**Question 2:**

SOW Statements 6.1.3, 6.1.8, 8.3.3, and 8.5 explicitly state that there will be testing at DND facilities. Will the testing equipment be provided as GFE or is the bidder expected to provide their own testing equipment? If it is the latter, it is recommended that a mandatory corporate requirement be added to ensure that the bidder has access to the required test equipment required to carry out the expected tasks in line with Mandatory Corporate Requirement 1. Further, in the situation where a bidder does not directly own the required test equipment, it is recommended that the bidder be required to provide evidence stating that they will be able to access the test equipment to ensure that work can be performed in a timely manner to meet the obligations of the expected tasks.

**Answer 2:**

After review, another mandatory corporate criterion will not be added and the Bid Evaluation Criteria will remain the same.
