- 2.1 Agriculture and Agri-Food Canada will only consider Proposals which accept Agriculture and Agri-Food Canada's terms and conditions.

5.0 RIGHTS OF CANADA

- 5.1 Canada reserves the right to:
 - 1. Accept any Proposal in whole or in part, without prior negotiation;
 - 2. Reject any or all Proposals received in response to this RFP;
 - 3. Cancel and/or re-issue this RFP at any time;
 - 4. Ask the Bidder to substantiate any claim made in the Proposal;
 - 5. Enter into negotiations with one or more Bidders on any or all aspects of their Proposals;
 - 6. Award one or more Contracts;
 - 7. Retain all Proposals submitted in response to this RFP.

6.0 SUBSTANTIATION OF PROFESSIONAL SERVICES RATES

- 6.1 In Canada's experience, bidders will from time to time propose prices at the time of bidding that they later refuse to honour, on the basis that these prices do not allow them to recover their own costs and/or make a profit. When evaluating the prices for professional services bid, Canada may, but will have no obligation to, require price support for any prices proposed. Examples of price support that Canada would consider satisfactory include:
 - 1. documentation (such as billing records) that shows that the Bidder has recently provided and invoiced another customer (with whom the Bidder deals at arm's length) for services similar to the services that would be provided under a resulting contract, and the fees charged are equal to or less than the price offered to Canada (to protect the privacy of the customer, the Bidder may black out the customer's name and personal information on the invoice submitted to Canada);
 - 2. a signed contract between the Bidder and an individual qualified (based on the qualifications described in this bid solicitation) to provide services under a resulting contract where the amount payable under that contract by the Bidder to the resource is equal to or less than the price bid;
 - 3. a signed contract with a subcontractor who will perform the work under any resulting contract, which provides that the required services will be provided at a price that is equal to or less than the price bid; or
 - 4. details regarding the salary paid to and benefits provided to the individuals employed by the Bidder to provide services, where the amount of compensation, when converted to a per diem or hourly rate (as applicable), is equal to or less than the rate bid for that resource category.

Once Canada requests substantiation of the prices bid, it is the sole responsibility of the Bidder to submit information (either the information described in the examples above, or other information that demonstrates that it will be able to recover its own costs based on the prices it has proposed) that will allow Canada to determine whether it can rely, with confidence, on the Bidder's ability to provide the required services at the prices bid, while, at a minimum, recovering its own costs. Where Canada determines that the information provided by the Bidder does not demonstrate the Bidder's ability to recover its own costs in providing the prices bid, Canada may, at their sole discretion declare the bid non-compliant.

7.0 MANDATORY CLAUSES

7.1 Where the words “**must**”, “**shall**” or “**will**” appear in this RFP, the clause is to be considered as a mandatory requirement.

You have the option of raising issues or concerns regarding the solicitation, or the award resulting from it, with the OPO by contacting them by telephone at 1-866-734-5169 or by e-mail at boa.opo@boa.opo.gc.ca. Bidders will be requested to sign an attendance form. Bidders who do not attend or send a representative will not be given an alternative appointment but they will not be precluded from submitting a bid. Any clarifications or changes to the bid solicitation resulting from the site visit will be included as an amendment to the bid solicitation.

PART 2: PROPOSAL PREPARATION INSTRUCTIONS & EVALUATION PROCEDURES

- 1.2 In their bid submission, bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their proposal, by deleting the Canadian province specified in the previous paragraph and inserting the Canadian province or territory of their choice. If no change is made, the bidder acknowledges the applicable law specified is acceptable to the Bidder.

2.0 SUBMISSION OF PROPOSAL

- 2.1 Proposals must be submitted in hard copy as described in Article 3.0.

3.0 PROPOSAL PREPARATION INSTRUCTIONS

- 3.1 The proposal **must** be structured in **THREE SEPARATE ENVELOPES** as indicated below:

Section 1	Technical Proposal (with no reference to price)	1 original hard copy and

5.1 The Bidder may revise his/her tender by facsimile, or email, provided it is received before the RFP Closing Date & Time.

However, any indication of price modification shall not reveal the amount of the original or the revised total price. Price modifications should only include the amount of the increase or decrease of the bid. Any indication of the old or the new total price will get the Proposal discarded automatically.

6.0 CERTIFICATION REQUIREMENTS (Section 3)

In order to be awarded a contract, the certifications attached in **Appendix "E"** will be required. The certifications should be submitted with the proposal. Canada may declare a bid non-responsive if the certifications are not submitted or completed as required. Where Canada intends to reject a proposal pursuant to this paragraph, the Contracting Authority will so inform the Bidder and provide

the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time frame period will render the proposal non-responsive.

Compliance with the certifications the Bidder provides to Canada is subject to verification by Canada. The Contracting Authority shall have the right to ask for additional information to verify that the Bidder is compliant with the applicable certifications before and after award of a contract. Any certification made by the Bidder that is determined to be untrue, whether made knowingly or unknowingly, or any failure to comply with the certifications or comply with the request of the Contracting Authority for additional information, will render the bid non-responsive.

7.0 EVALUATION PROCEDURES

 - (2) Is in full conformity with the Statement of Work; and
 - (3) Meets all other requirements of the Contract.

4.4 Notwithstanding acceptance of the Work or any part thereof, the Contractor warrants that the Work shall be of such quality as to clearly demonstrate that the Contractor has performed the Work in accordance with the undertaking in subsection 4.3.

GC5. Inspection and Acceptance

5.1 The Work will be subject to inspection by Canada. Should any part of the Work whether it be a report, document, good or service not be in accordance with the Contract or not be done to the satisfaction of the Canada, as submitted, Canada will have the right to reject it or require its correction at the sole expense of the Contractor before making payment.

5.2 The Contractor will be in default of the Contract if the Work is rejected by Canada or if he fails to correct the Work within a reasonable delay.

GC6. Amendments and Waivers

6.1 No design change, modification to the Work, or amendment to the Contract shall be binding unless it is incorporated into the Contract by written amendment or design change memorandum executed by the authorized representatives of Canada and of the Contractor.

6.2 While the Contractor may discuss any proposed changes or modifications to the scope of the Work with the representatives of Canada, Canada shall not be liable for the cost of any such change or modification until it has been incorporated into the Contract in accordance with subsection 6.1.

6.3 No waiver shall be valid, binding or affect the rights of the Parties unless it is made in writing by, in the case of a waiver by Canada, the Contracting Authority and, in the case of a waiver by the Contractor, the authorized representative of the Contractor.

6.4 The waiver by a Party of a breach of any term or condition of the Contract shall not prevent the enforcement of that term or condition by that Party in the case of a subsequent breach, and shall not be deemed or construed to be a waiver of any subsequent breach.

GC7. Time of the Essence

It is essential that the Work be performed within or at the time stated in the Contract.

GC8. Excusable delay

8.1 Any delay by the Contractor in performing the Contractor's obligations under the Contract which occurs without any fault or neglect on the part of the Contractor its subcontractors, agents or employees or is caused by an event beyond the control of the Contractor, and which could not have been avoided by the Contractor without incurring unreasonable cost through the use of work-around plans including alternative sources or other means, constitutes an excusable delay.

- 8.2 The Contractor shall give notice to the Minister immediately after the occurrence of the event that causes the excusable delay. The notice shall state the cause and circumstances of the delay and indicate the portion of the Work affected by the delay. When requested to do so by the Minister, the Contractor shall deliver a description, in a form satisfactory to the Minister, of work-around plans including alternative sources and any other means that the Contractor will utilize to overcome the delay and Endeavour to prevent any further delay. Upon approval in writing by the Minister of the work-around plans, the Contractor shall implement the work around plans and use all reasonable means to recover any time lost as a result of the excusable delay.
- 8.3 Unless the Contractor complies with the notice requirements set forth in the Contract, any delay that might have constituted an excusable delay shall be deemed not to be an excusable delay.
- 8.4 If an excusable delay has continued for thirty (30) days or more, Canada may, by giving notice in writing to the Contractor, terminate the Contract. In such a case, the Parties agree that neither will make any claim against the other for damages, costs, expected profits or any other loss arising out of the termination or the event that contributed to the excusable delay. The Contractor agrees to repay immediately to Canada the portion of any advance payment that is unliquidated at the date of the termination.
- 8.5 Unless Canada has caused the delay by failing to meet an obligation under the Contract, Canada will not be responsible for any cost incurred by the contractor or any subcontractors or agents as a result of an excusable delay.
- 8.6 If the Contract is terminated under this section, Canada may require the Contractor to deliver to Canada, in the manner and to the extent directed by Canada, any completed parts of the Work not delivered and accepted before the termination and anything that the Contractor has acquired or produced specifically to perform the Contract. Canada will pay the Contractor:
- (a) The value, of all completed parts of the Work delivered to and accepted by Canada, based on the Contract price, including the proportionate part of the Contractor's profit or fee included in the Contract price; and
 - (b) The cost to the Contractor that Canada considers reasonable in respect of anything else delivered to and accepted by Canada.
- 8.7 The total amount paid by Canada under the Contract to the date of termination and any amounts payable under this subsection must not exceed the Contract price.

APPENDIX “B” STATEMENT OF WORK

Statement of Work

Purpose

The purpose of this document is to provide an overview of the project and the services to be provided by the Consultant over the course of the project, and to describe the content and format of the deliverables.

Project specifics

Project title and number

Project title: Feasibility Study – Biomethanization Project

Location: Dairy and Swine Research and Development Centre (DSRDC) - Sherbrooke

Project number: 01B46-15-0033

Background

According to the United Nations Food and Agriculture Organization (FAO), world demand for dairy products and meat is expected to double by 2050. It is therefore important for AAFC to be innovative in its processes and procedures in order to reduce the environmental footprint of its livestock production operations.

Given its two-fold mandate of livestock production and production of livestock feed, the goal of the Dairy and Swine Research and Development Centre (DSRDC) is to become a demonstration platform and technology showcase by developing various initiatives and innovations in order to demonstrate the feasibility of reducing the environmental footprint of livestock production. To this end, AAFC has developed a new high-performance, low-temperature anaerobic digestion technology in order to create value from liquid and solid animal waste.

In this context, the purpose of this feasibility study is to evaluate the prospects for improving the efficiency of swine and dairy operations by creating value from liquid and solid animal waste by biomethanization using those new technologies. For information, the DSRDC has a herd of 150 dairy cattle. Dairy operations are concentrated in Building #76. The solid and liquid fractions of manure from the dairy herd are separated and stored in two separate structures. The solid fraction is stored in two rectangular pits and the liquid portion in a circular pit. This pit also receives the wash water from the dairy complex. In addition, the centre has an experimental swine complex (Building #7). A liquid management system is used for the management of manure produced in the swine complex.

Project objectives

The objectives of the feasibility study are divided into two phases:

Phase I

- 1) In the first phase, the feasibility study will analyze the quantity and quality of the inputs (liquid and solid animal waste and not edible silage) available at the DSRDC. The first phase of the feasibility study will also analyze the methanogenic potential as well as the energy potential of the available inputs and provide a recommendation as to whether the DSRDC has a sufficient quantity and quality of inputs to support a biomethanization facility.

Phase II

- 2) Should it be determined that the DSRDC has the necessary inputs on site to support a biomethanization facility, the second phase of the feasibility study will consist in analyzing the high-performance, low-temperature anaerobic digestion technology developed by AAFC and commercialized under licence by Bio-Terre Systems for liquid animal waste and another low-temperature anaerobic digestion also developed by AAFC for solid animal waste. In addition, the study will determine whether a project at the DSRDC using those specific technologies is financially viable and technically feasible according to two scenarios. The study will also analyze the potential environmental benefits of such a project (reduction in air pollution, reduction in odours and in soil and water contamination, potential reduction in greenhouse gases such as CO₂, CH₄, N₂O, potential reduction in fossil energy consumption, potential reduction in mineral fertilizers, etc.). In addition, the study will provide preliminary estimates (Class D) as well as preliminary design and engineering drawings.

Applicable Standards

The feasibility study will take into consideration all the standards, codes and regulations applicable to this field of specialization.

Consultant's terms of reference

Under the terms of reference of this contract, the Consultant will provide the following services and include the following elements in its report:

Phase I

- 1) Review the requirements with the Departmental Representative
- 2) Conduct a literature review
- 3) Analyze the high-performance, low-temperature anaerobic digestion technology developed by AAFC for liquid and solid animal waste
- 4) Conduct a complete on-site survey of the facilities
- 5) Determine the quantities of usable animal waste at the DSRDC for the purpose of biomethanization
- 6) Characterize the usable waste (liquid and solid animal waste and not edible silage)
- 7) Analyze the quality of the inputs

- 8) Analyze the methanogenic potential of the site's usable inputs
- 9) Analyze the energy potential of biogas production (in m³)
- 10) Determine and make a recommendation as to whether the site is a potential candidate for the establishment of a biomethanization facility. Indicate which inputs can or cannot be used in the biomethanization facility using the technology developed by AAFC.
- 11) Submit a preliminary report with the results and recommendations of Phase I to the Departmental Representative and hold a meeting at the DSRDC to present the content and recommendations of the preliminary report.

Phase II (this phase is optional and depends on the conclusions of Phase I)

APPENDIX D EVALUATION PROCEDURES & CRITERIA

TECHNICAL PROPOSAL

It is essential that the elements contained in the Proposal be stated in a clear manner and in sufficient depth to allow for evaluation by the evaluation team.

1.0 METHOD OF SELECTION – HIGHEST COMBINED SCORE OF TECHNICAL MERIT AND PRICE

- 1.1 The evaluation process is designed to identify the most qualified contractor to provide services as stipulated in the Statement of Work (Appendix B).
- 1.2 This section comprises the detailed Proposal requirements that will be used to evaluate Bidders' responses to the RFP.
- 1.3 The mandatory requirements under section 2.0 will be evaluated on a compliant/non-compliant basis. The Proposals must include the necessary documentation to demonstrate this compliance.
- 1.4 The selection of the responsive Proposal will be made on the basis of the **HIGHEST COMBINED SCORE** for both the technical and financial proposals. The combined scores will be determined by adding the technical and financial points obtained.

The Bidders' Technical and Financial proposals will be scored separately. An Overall Proposal Score will be determined by combining a Bidder's Technical Proposal Score and Financial Proposal Score in accordance with the following weights:

Technical Proposal = 60%
Financial Proposal = 40%
Overall Proposal = 100%

Formula:

$$\frac{\text{Technical Score} \times \text{Ratio (60)}}{\text{Max Points}} + \frac{\text{Lowest Price} \times \text{Ratio (40)}}{\text{Bidder's Price}} = \text{Overall Score}$$

Example:

Highest Combined Rating Technical Merit (60%) and Price (40%)			
Calculation	Technical Points	Price Points	Total Points
Proposal 1 - Tech = 88/100 - Price = \$60,000	$\frac{88 \times 60}{100} = 52.8$	$\frac{*50 \times 40}{60} = 33.3$	= 86.1
Proposal 2 - Tech = 86/100 - Price - \$55,000	$\frac{86 \times 60}{100} = 51.6$	$\frac{*50 \times 40}{55} = 36.4$	= 88
Proposal 3 - Tech = 76/100 - Price = \$50,000	$\frac{76 \times 60}{100} = 45.6$	$\frac{*50 \times 40}{50} = 40$	= 85.6
* Represents the lowest priced proposal Bidder 2 is successful with the highest combined rating of 88.			

1.5 To be considered Responsive, a Proposal Must:

- 1- Meet all the mandatory requirements specified in section 2.0 below;
- 2- Achieve the minimum number of points identified on each criteria in rated criteria.

1.6 The price of the Proposal will be evaluated in CANADIAN DOLLARS, Applicable Taxes excluded, FOB destination for goods/services, Customs Duties and Excise Taxes included.

1.7 Failure of a Proposal to provide information in sufficient detail and depth to permit evaluation against the identified criteria may render a Proposal non-responsive. **All Bidders are advised that only listing experience without providing any supporting data to describe where and how such experience was obtained will not be considered to be “demonstrated” for the purpose of the evaluation. All professional experience must be fully demonstrated in the Proposal (i.e., dates, number of years and months of experience).**

1.8 The Bidders acknowledge and agree that Canada is not responsible to search for, and therefore evaluate, information that is not properly referenced or is not otherwise provided in accordance with the Proposal Preparation Instructions in Part 2, Article 3.0.

1.9 Bidders shall not place any conditions or make any assumptions that attempt to limit or otherwise modify the scope of Work pursuant to the Statement of Work (Appendix B).

1.10 In the event two or more responsive proposals receive the same combined score, the proposal with the lowest price will be ranked higher.
