

Question 8

Can you please clarify that a proposed resource that has either a graduate degree in finance, economics, or other relevant area, or a professional designation in the areas of risk management, finance, or other relevant specialties, will qualify?

Answer 8

A proposed resource that has a graduate degree in finance, economics or other relevant area, or a professional designation in risk management, finance, or other relevant specialties will not, on its own, qualify or disqualify. It is possible that individual resources proposed by skill level meet some of the mandatory requirements but it is important that the combined candidates proposed meet all requirements.

Question 9

We note that the table in section 4.8 requests that the Offeror provide per diem or hourly rates for staff at the Junior or Intermediate level. Can you please confirm that, for the purposes of this RFSO, that is the only requirement for junior and intermediate staff?

Answer 9

The combined candidates proposed should meet all requirements.
