PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1. Evaluation Procedures

- (a) Offers will be assessed in accordance with the entire requirement of the Request for Standing Offer (RFSO) including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the offers.
- (c) The evaluation team will determine first if there are two (2) or more offers with a valid Canadian Content certification. In that event, the evaluation process will be limited to the offers with the certification; otherwise, all offers will be evaluated. If some of the offers with a valid certification are declared non-responsive, or are withdrawn, and less than two responsive offers with a valid certification remain, the evaluation will continue among those offers with a valid certification. If all offers with a valid certification are subsequently declared non-responsive, or are withdrawn, then all the other offers received will be evaluated.

4.1.1 Technical Evaluation

Refer to Attachment 1 to Part 4.

4.1.2 Financial Evaluation

Step 1 Each Offeror will have a "Total Evaluated Price" calculated in each Region/Metropolitan Area it submitted an Offer. The Total Evaluated Price will be determined in accordance with the Pricing Schedule detailed in Attachment 1 to Part 3.

Step 2 A median rate will be calculated amongst all technically-compliant offers in each Region/Metropolitan Area using the median function in Microsoft Excel. A median is the middle offer in a set of offers whereby half of the offers are greater and half are lower. When an even number of technically responsive offers have been determined, an average of the middle 2 prices/rates will be used to calculate the median.

Step 3 The median price range, defined as + or – 40% of the median rate determined in Step 2, will be calculated for each Region/Metropolitan Area.

Step 4 (i) An Offer whose Total Evaluated Price falls outside the median price range determined in Step 3 will be declared non-responsive for the applicable Region(s)/Metropolitan Area(s).

(ii) An Offer whose total evaluated price falls within or is equal to the upper or lower limit of the median price range determined in Step 3 will be declared responsive for the applicable Region(s)/Metropolitan Area(s).

4.2. Basis of Selection

- (a) To be declared responsive, an offer must:
 - (i) comply with all the requirements of the RFSO;
 - (ii) meet all mandatory technical criteria; and
 - (iii) be within or equal to the upper or lower limit of the median price range, as described in the financial evaluation.
- (b) Offers not meeting (i) or (ii) or (iii) will be declared non-responsive.

PART 5 - CERTIFICATIONS

Offerors must provide the required certifications and associated information to be issued a standing offer.

The certifications provided by offerors to Canada are subject to verification by Canada at all times. Canada will declare an offer non-responsive, will have the right to set-aside a standing offer, or will declare a contractor in default in carrying out any of its obligations under any resulting contracts, if any certification made by the Offeror is found to be untrue whether made knowingly or unknowingly during the offer evaluation period, during the Standing Offer period, or during the contract period.

The Standing Offer Authority will have the right to ask for additional information to verify the Offeror's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Standing Offer Authority may render the Offer non-responsive, may result in the setting aside of the Standing Offer or constitute a default under the Contract.

5.1. Certifications Required Precedent to Issuance of a Standing Offer

The Certifications Required Precedent to Issuance of a Standing Offer (SO), should be completed and submitted with the offer, but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the SO Authority will so inform the Offeror and provide the Offeror with a time frame within which to meet the requirement. Failure to comply with the request of the SO Authority and meet the requirement within that time period will render the offer non-responsive.

5.1.1 Integrity Provisions - Associated Information

By submitting an offer, the Offeror certifies that the Offeror and its Affiliates are in compliance with the provisions as stated in Section 01 Integrity Provisions - Offer of Standard Instructions 2006. The associated information required within the Integrity Provisions will assist Canada in confirming that the certifications are true.

5.1.2 Federal Contractors Program for Employment Equity - Standing Offer Certification

By submitting an offer, the Offeror certifies that the Offeror, and any of the Offeror's members if the Offeror is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "[FCP Limited Eligibility to Bid](http://www.labour.gc.ca/eng/standards_equity/eq/emp/fcp/list/inelig.shtml)" list (http://www.labour.gc.ca/eng/standards_equity/eq/emp/fcp/list/inelig.shtml) available from Employment and Social Development Canada-Labour's website.

Canada will have the right to declare an offer non-responsive, or to set-aside a Standing Offer, if the Offeror, or any member of the Offeror if the Offeror is a Joint Venture, appears on the "[FCP Limited Eligibility to Bid](http://www.labour.gc.ca/eng/standards_equity/eq/emp/fcp/list/inelig.shtml)" list at the time of issuing of a Standing Offer or during the period of the Standing Offer.

5.2. Additional Certifications Required Precedent to Issuance of a Standing Offer

The certifications listed below should be completed and submitted with the offer, but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Standing Offer Authority will inform the Offeror of a time frame within which to provide the information. 5.2.1 Canadian Content Certification

SACC Manual clause A3050T (2010-01-11), Canadian Content Definition

This procurement is conditionally limited to Canadian services.

Subject to the evaluation procedures contained in the request for standing offer, offerors acknowledge that only offers with a certification that the services offered are Canadian services, as defined in clause A3050T, may be considered.

Failure to provide this certification completed with the offer will result in the services offered being treated as non-Canadian services.

The Offeror certifies that:

() the services offered are Canadian services as defined in paragraph 2 of clause A3050T.

6.1.2 Offerors are reminded to obtain the required security clearance promptly. Any delay in the issuance of a standing offer to allow the successful offeror to obtain the required clearance will be at the entire discretion of the Standing Offer Authority.

6.1.3 Bidders may request that the Standing Offer Authority consider security sponsorship of their candidacy to seek DOS clearance. This request may be made at any time before bid closing by sending the request via email to the attention of the Standing Offer Authority.

6.1.4 For additional information on security requirements, offerors should refer to the Canadian Industrial Security Directorate (CISD), Industrial Security Program of Public Works and Government Services Canada (<http://ssi-iss.tpsgc-pwgsc.gc.ca/index-eng.html>) website.

- (g) **Ranking and Methodology for Multiple SOs:** If more than one SO is authorized for use, the offers will be ranked in ascending order based on the sum of the firm price for an Initial Ergonomic Assessment and the fixed hourly rate for Follow-up Ergonomic Assessment(s).

7A.8.1 Call-up Process for requirements less than \$25,000.00 (GST/HST included),

Identified Users will have 2 options:

7A.8.1.1 Option 1 - Right of First Refusal basis:

The Identified User will contact the highest-ranked Offeror within the applicable Region/Metropolitan Area. If the highest-ranked Offeror is able to meet the requirement, a call-up is made against its SO. If that Offeror is unable to meet the requirement, the Identified User will contact the next ranked Offeror. The Identified User will continue and proceed as above until one Offeror indicates that it can meet the requirement of the call-up. In other words, call-ups are made based on the "right of first refusal" basis. When the highest-ranked Offeror is unable to fulfill the need, the Identified User is required to document its file appropriately. In the event no Offeror exists for the Region/Metropolitan Area, the Identified User will follow the process described above based on the Offerors within the next closest applicable Region/Metropolitan Area or choose a supplier of their choice.

7A.8.1.2 Option 2 - Directed Requirements:

The Identified User will direct an Availability Confirmation Request (see Step 1 below) to any of the Offerors who are listed under the SO, in accordance with the Government Contracts Regulations.

Regardless which option above is chosen, the supplier should be engaged as follows:

Step 1 - Availability Confirmation Request:

The Identified User will provide the following information to the Offeror by e-mail:

- 1) The Region/Metropolitan Area where the services are required;
- 2) The name, work location and contact information of the individual to schedule and confirm all of the details of the appointment;
- 3) The name, work location and contact information of the employee and Manager;
- 4) The language of the Work;
- 5) The format the report must be submitted in; and
- 6) The authorization to travel, if required.

Step 2 - Response Requirements:

The Offeror must confirm in writing by e-mail within two (2) working days of receiving the Availability Confirmation Request as to the availability to conduct the Work. For an urgent Availability Confirmation Request, the Offeror must confirm in writing by e-mail within 1 working day.

If the Offeror is available to conduct the Work as requested, the Offeror must propose which resource(s) it will use and will have an additional 3 working days to demonstrate the proposed resources meet the requirements set out in the section entitled "Minimum Mandatory Qualifications" in Annex A. If the Offeror confirms in writing by e-mail it is unable to fulfill the requirement or does not submit a response within the above deadline(s), the Identified User will issue the Availability Confirmation Request to the next ranked Offeror.

NOTE: If the "right of first refusal" basis is being used, Identified Users may, for efficiency purposes, send their Availability Confirmation Request to more than one Offeror at once.

1 Under no circumstances, however, must the Identified User skip over the highest-ranked Offeror during the process (i.e. the Identified User is NOT ALLOWED to simply invite Offerors listed in ranking positions 5 to 8, without inviting Offerors listed in ranking positions to 4).

If a positive reply is received by the highest ranked Offeror within the specified time, the client must proceed with this Offeror and proceed to award a Call-up.

Step 3 - Assessment of Proposed Resources:

The Offeror's proposed resource(s) will be assessed against the requirements set out in the section entitled "Minimum Mandatory Qualifications" in Annex A. If the proposed resource(s) do not meet the requirements set out in Annex A, the Offeror will be advised and will be given up to two (2) working days to propose new resource(s). For an urgent Availability Confirmation Request, the Offeror will be given up to one (1) working day to propose new resource(s).

If the proposed new resource(s) do not meet the requirements set out in Annex A or the Offeror does not submit a response within the above deadline, the Offeror will be advised and the Identified User will issue the Availability Confirmation Request to the next Offeror. This process will be repeated until a call-up is issued or the Availability Confirmation Request is withdrawn.

Step 4 - Issuance of a Call-up: The Identified User will issue the Call-up to the Offeror using the Call-up instrument.

7A.8.2 Call-up Process for Requirements equal to or exceeding \$25,000.00 (GST/HST included): Call-ups will be made on a "right of first refusal" method of work allocation.

Step 1 - Authorization Request:

The Identified User will provide the following information to the SO Authority by e-mail:

- 1) The Region/Metropolitan Area where the services are required;
 - 2) List of Offerors they will be sending their Availability Confirmation Request to;
- and
- 3) The total estimated cost (GST/HST included).

Step 2 - SO Authority Authorization:

The SO Authority will authorize the Authorization Request in writing by e-mail within three (3) working of receiving the Authorization Request from the Identified User.

Once approval is received from the SO Authority, the Identified User will follow Steps 1-4 from Article 7A.8.1.

7A.9. Call-up Instrument

Certifications are subject to verification by Canada during the entire period of the SO and of any resulting contract that would continue beyond the period of the SO. If the Offeror does not comply with any certification, fails to provide the associated information, or if it is determined that any certification made by the Offeror in its offer is untrue, whether made knowingly or unknowingly, Canada has the right to terminate any resulting contract for default and set aside the Standing Offer.
