## SI12 Mandatory Requirements/Contractor Selection

### Contractor Selection

Three scenarios are detailed in Appendix 1 and in the specification, identifying three different areas of dredging work, from smallest to largest.

The bidder offering the lowest priced responsive bid for the scenario with the largest area of work within the Project Budget will be recommended for award.

The Project Budget will be disclosed at the Tender Opening, prior to bids being read out.

### Mandatory Submission Requirements

To be considered compliant, a submission must meet all of the mandatory evaluation criteria. Submissions not meeting all of the mandatory requirements will be given no further consideration.

If Canada requests that the bidder submit information or documents within a specified time period, failure to provide these documents or this information at Canada's request within the specified time period will result in the bid being deemed non-responsive.

Bidder must:

1. Submit the bid to the Bid Receiving Unit prior to the closing date and time indicated on the front page of the solicitation document;
2. Complete and submit signed Bid and Acceptance Form (complete all combined price form for Scenario A, B and C, in Appendix 1);
3. Provide Bid Security as per the General Instructions to Bidders;
4. In order to comply with clause GI07, Registry and Pre-qualification of Floating Plant, of the General Instructions to bidders R2710T:

.1 Bidders shall submit a bid on the basis that the dredge(s), and other support floating plant to be used for the work are registered in Canada. Bidders shall identify the equipment to be used by completing the Bid and Acceptance Form Floating Plant. (PWGSC-TPSGC-2843)

If necessary, bidders shall be able to demonstrate, within 48 hours of receipt of Canada's written request, that the dredges or floating plant are registered in Canada.

---

.2 Append to their bids a copy of the Certificate of qualification issued by Industry Canada if the dredge(s) or other floating plant to be used for the work is/are not manufactured in Canada.

If at bid closing this certificate is not appended to the bid for any of the dredges or equipment not manufactured in Canada indicated in Bid and Acceptance Form Floating Plant (PWGSC-TPSGC-2843), the bid will be deemed non-responsive.

If at Bid closing this information is not submitted with the bid, the bid will be deemed non-responsive.
