

Question 23

As a follow-up to Question and Answer 4,

Do we need to propose resources in all 4 levels (Junior, intermediate, senior, Project Manager/Leader) or for example, is it acceptable to propose a team made up of one intermediate, one senior, and one Project Manager/Leader, who combined met the requirement?

Answer 23

The consulting firm may propose the resources it feels are appropriate for the work described. There is no obligation to have a junior level. It is acceptable to propose a team with members who, combined, meet the requirement.
