### **3. Debriefings**

After contract award, bidders may request a debriefing on the results of the bid solicitation process. ### **PART 2 - BIDDER INSTRUCTIONS**

#### 1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the *Standard Acquisition Clauses and Conditions Manual* (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Revision to Departmental Name: As this solicitation is issued by the Royal Canadian Mounted Police (RCMP), any reference to Public Works and Government Services Canada or PWGSC or its Minister contained in any term, condition or clause of this solicitation, including any individual SACC clauses incorporated by reference, will be interpreted as reference to RCMP or its Minister.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2014-09-25) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

Section 01 Integrity Provisions – Bid of 2003 referenced above is amended as follows:

#### 2. Submission of Bids

### 3. Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than **seven (7) calendar days before the bid closing date**. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

### 4. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in the province of Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. ## **PART 3 - BID PREPARATION INSTRUCTIONS**

### 1. Bid Preparation Instructions

Canada requests that bidders provide their bid in separately bound sections as follows:

Section I: Technical Bid (1 hard copy)  
Section II: Financial Bid (1 hard copy)  
Section III: Certifications (1 hard copy)

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, bidders should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duo tangs or binders.

#### **Section I: Technical Bid**

In their technical bid, bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the work (reference pre-contract award sample, Part 4, Evaluation Procedures, 1.1.1 Mandatory Technical Criteria).

#### **Section II: Financial Bid**

Bidders must submit their financial bid in accordance with Annex A – Requirement and Basis of Payment. The total amount of Goods and Services Tax (GST) or Harmonized Sales Tax (HST) must be shown separately, if applicable.

##### **1.1 Exchange Rate Fluctuation**

C3011T (2013-11-06), Exchange Rate Fluctuation

#### **Section III: Certifications**

Bidders must submit the certifications required under Part 5.

### **PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION**

#### **1. Evaluation Procedures**

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

- (c) The evaluation team will determine first if there are two (2) or more bids with a valid Canadian Content certification. In that event, the evaluation process will be limited to the bids with the certification; otherwise, all bids will be evaluated. If some of the bids with a valid certification are declared non-responsive, or are withdrawn, and less than two responsive bids with a valid certification remain, the evaluation will continue among those bids with a valid certification. If all bids with a valid certification are subsequently declared non-responsive, or are withdrawn, then all the other bids received will be evaluated.

## 1.1 Technical Evaluation

### 1.1.1 Mandatory Technical Criteria

As part of the technical evaluation, to confirm a Bidder's capability of meeting the technical requirements, one (1) pre-contract award sample of the following item will be required:

1. Trousers, Heavyweight, Whipcord, Male Size: 34R Stock #: 6875-351
2. Trousers, Heavyweight, Whipcord, Female Size: 30R Stock #: 6885-306

The **pre-contract award samples** along with **Certificates of Compliance and Test Reports** will be required after the bid closing date, upon a written request from the Contracting authority, from up to the four (4) lowest bidders. Should these low bidders not be technically compliant, up to the next four (4) lowest bidders will be requested to submit pre-contract award samples, and so on until a technically compliant bid is found.

The Bidder must ensure that the required pre-contract award samples are manufactured in accordance with the technical requirement and are fully representative of the bid submitted. Rejection of the pre-contract award samples will result in the bid being declared non-responsive.

An RCMP viewing sample will be provided to bidders who are requested to provide pre-contract award samples and is to be used for guidance for all factors not covered by the RCMP specification. The RCMP specification shall govern.

**The viewing sample is not to be damaged or cut, but returned in the same condition as sent to the bidder. The viewing sample MUST be returned to the RCMP with the pre-contract award samples and certificates of compliance and test reports.**

The bidders must deliver the required pre-contract award samples and certificates of compliance and test reports at no charge to Canada and must ensure that they are received within **35 calendar days** from request. Failure to submit the required pre-contract award samples and certificates of compliance and test reports within the specified time frame will result in the bid being declared non-responsive. The samples submitted by the bidders will remain the property of Canada.

**Certificates of Compliance for the following properties are required as defined herein:**

**Note: The certificates of compliance must be dated within 18 months of the solicitation posting date.**

Reference RCMP Specification G.S. 1045-090, dated 2015-05-05

1. Pocket, Waistband, Fly & Crotch Lining, para. 4.1.3 of the specification
2. Seaming, Stitching, Buttonhole & Bar-Tack Thread, para. 4.1.4 of the specification

3. Slide Fasteners, para. 4.1.6 of the specification
4. Waistbanding, para. 4.1.7 of the specification
5. Hook & Eye, para. 4.1.8 of the specification

**The requirement for pre-contract awards sample may be waived if the bidder has:**

Submitted a pre-contract award sample of the item(s) on a previous requirement or through a separate pre-qualification process by the RCMP Technical Authority to the latest specification and where the pre-contract award sample was found to be compliant. Bidders may be requested to submit a copy of the evaluation report to validate compliance.

If the above has been met, the bidder must sign this representation and warrants that no significant changes have occurred in their manufacturing processes or their organization since the last award or pre-contract award qualification, which could affect the manufacturing of the referenced item.

**Certificate of Compliance - Definition**

A Certificate of Compliance is defined, for this document, as a signed and dated certification to confirm that a specified component or requirement adheres to the specification. The certification must be prepared, signed and dated by an official representative of the component manufacturer using company letterhead making reference to the specification number and paragraph number. It must specifically address the component or requirement and compliance can be shown by referring to a part number, by providing the component values, by providing a manufacturing data sheet to show technical compliance or by a description stating compliance to the requirement. In-house testing is acceptable to show compliance. Copying the specification word for word is not acceptable.

A separate certificate of compliance is required for each individual component or requirement. Multiple components supplied by the same component manufacturer may be submitted on one certificate of compliance as long as the paragraph numbers and components are clearly identified. With this document, the bidder certifies that the product for which the certificate of compliance is issued is the same product used in the bid submission, or in the pre-award samples or in the pre-production samples, or in the production units as applicable.

The Bidder is to note that copies of invoices, purchase orders, packing slips and certificates of compliance for products or components that are not manufactured by the certifier are not suitable for use as a certificate of compliance.

**1.2 Financial Evaluation**

The price of the bid will be evaluated in Canadian dollars, the Goods and Services Tax or the Harmonized Sales Tax excluded, DDP Ottawa, Ontario Incoterms 2000, transportation costs included, Canadian customs duties and excise taxes included.

**2. Basis of Selection**

A bid must comply with the requirements of the bid solicitation and meet all mandatory technical criteria and financial evaluation to be declared responsive.

The responsive bid with the lowest evaluated price will be recommended for award of a contract (1 contract only).

Evaluation of price will be established using the firm, optional, flexible and made-to-measure quantities.

## **PART 5 - CERTIFICATIONS**

Bidders must provide the required certifications and documentation to be awarded a contract. The certifications provided by bidders to Canada are subject to verification by Canada at all times. Canada will declare a bid non-responsive, or will declare a contractor in default, if any certification made by the Bidder is found to be untrue whether during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply with this request will also render the bid non-responsive or will constitute a default under the Contract.

### **1. Mandatory Certifications Required Precedent to Contract Award**

#### **1.1 Integrity Provisions – Associated Information**

By submitting a bid, the Bidder certifies that the Bidder and its affiliates are in compliance with the provisions as stated in the Standard Instructions identified in this solicitation. The related documentation therein required will assist Canada in confirming that the certifications are true.

#### **1.2 Federal Contractor's Program for Employment Equity – Bid Certification**

By submitting a bid, the Bidder certifies that the Bidder, and any of the Bidder's members if the Bidder is a joint venture, is not named on the Federal Contractors Program (FCP) for employment equity. Canada will have the right to declare a bid non-responsive if the Bidder, or any member of the Bidder, if the Bidder is a Joint Venture, appears on the ["FCP Limited Eligibility to Bid"](#) list at the time of contract award.

### **2. Additional Certifications Precedent to Contract Award**

The certifications listed below should be completed and submitted with the bid, but **may** be submitted afterwards. If any of these required certifications are not completed and submitted as requested, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.

**Please check the applicable boxes below.**

### **19.1 Certificate of Compliance**

A Certificate of Compliance is defined, for this document, as a signed and dated certification to confirm that a specified component or requirement adheres to the specification. The certification must be prepared, signed and dated by an official representative of the component manufacturer using company letterhead making reference to the specification number and paragraph number. It must specifically address the component or requirement and compliance can be shown by referring to a part number, by providing the component values, by providing a manufacturing data sheet to show technical compliance or by a description stating compliance to the requirement. In-house testing is acceptable to show compliance. Copying the specification word for word is not acceptable.

A separate certificate of compliance is required for each individual component or requirement. Multiple components supplied by the same component manufacturer may be submitted on one certificate of compliance as long as the paragraph numbers and components are clearly identified. With this document, the bidder certifies that the product for which the certificate of compliance is issued is the same product used in the bid submission, or in the pre-award samples or in the pre-production samples, or in the production units as applicable.

The Bidder is to note that copies of invoices, purchase orders, packing slips and certificates of compliance for products or components that are not manufactured by the certifier are not suitable for use as a certificate of compliance.
