For the supply of hospital beds for Correctional Service of Canada, Bath Institution, Millhaven, Ontario.

The following question has been submitted:

1 .Are the steel construction and tube Mattress Support Decks mandatory or will they be considering bids with other deck options?

Answer:

1. It is Mandatory. These beds will be in a maximum security prison. Offenders who have personality disorders will also be on these units. Steel is the most difficult object for offender to manipulate into weapons without additional tools to first create the weapon. We have found weapons in all other none steel items such as aluminum and plastics as they melt it in the microwave they cannot do this with steel. This is a strong security practice.

Additionally it will add to the longevity of the unit.
