SPECIAL INSTRUCTIONS TO BIDDERS (SI)

SI01 INTRODUCTION

1. Public Works and Government Services Canada (PWGSC) is issuing an invitation to tender (ITT) for the remediation of contaminated marine sediments within the South Jetty under-pier area as Phase 2 of the Esquimalt Graving Dock (EGD) Waterlot Remediation Project. PWGSC also requires the demolition of the timber pile supported sections of the South Jetty, to provide access to the under-pier area for remediation. Rebuilding the demolished sections of the South Jetty is not part of this contract.
2. The EGD facility is located in Constance Cove of Esquimalt Harbour on Vancouver Island, British Columbia.
3. The sediment remediation required by this Contract is not a standard marine dredging and disposal project.
4. Material to be dredged and excavated within the EGD Work Site is located in difficult to access areas and is contaminated with various chemicals of concern.
5. Contractor shall use extra care to conduct its work in a manner that is suitable for environmental cleanup and not in a production dredging manner.
6. Marine sediments will be removed as part of this work for disposal at an existing Authorized Disposal Facility and Hazardous Waste Management Facility located in Canada.
7. The Detailed Site Investigation (DSI) characterization of the material to be dredged and excavated is suitable for waste classification purposes. Contractor shall be responsible for any additional sediment characterization that may be required during the execution of the contract for health and safety purposes, transportation, disposal, or to meet Laws and Regulations or permit requirements. Some of the sediment is classified as Hazardous Waste, according to the British Columbia Hazardous Waste Regulation (BC HWR). The remainder is classified as IL + waste material, according to the British Columbia Contaminated Sites Regulation (BC CSR). The total estimated quantity of sediment to be removed from the site, including estimated contingency re-dredging, is 40,000 cubic metres.
8. Re-suspension of contaminated sediments during construction activities is of great concern to PWGSC. Re suspension of contaminated sediments may result in re-contaminating portions of the EGD Work Site, and areas outside the EGD Work Site, that have been cleaned up as part of this work or previous remediation work completed within the EGD Waterlot. The Contractor shall conduct its work in a manner to minimize, to the extent practicable, re-suspension and redistribution of contaminated sediment, and to comply with environmental protection requirements in the Specifications, Environmental Management Plan, permits and regulations.
9. The work includes re-driving of the existing sheet pile containment wall around the perimeter of the South Jetty, design and installation of a temporary sediment resuspension barrier affixed to the re-driven sheet pile wall, and placement of engineered capping on the seabed after dredging. The re-driven sheet pile containment wall and temporary sediment resuspension barrier are to be removed from the site upon completion of the work.
10. The work includes demolition and offsite disposal of timber pile-supported sections of the South Jetty, re-use of timber components for marine protection of the remaining wharf infrastructure, and removal / modification of mechanical and electrical utilities.
11. Bidders responding to this ITT are requested to submit a full and complete quotation (refer to SI06 'Submission of Bid'). The bid will cover not only the qualifications, experience and organization of the Bidder (Envelope 1 - Qualifications), but also the pricing and terms offered (Envelope 2 - Price).

SI02 INTEGRITY PROVISIONS - DECLARATION OF CONVICTED OFFENCES

As applicable, pursuant to GI01 of the Declaration of Convicted Offences, paragraph 10 (copied below) of the General Instructions R2710T, the Bidder must provide with its bid, a completed [Declaration Form](#), to be given further consideration in the procurement process.

Declaration of Convicted Offences

SI15 PUBLIC WORKS AND GOVERNMENT SERVICES CANADA AND DEFENCE CONSTRUCTION CANADA APPRENTICE PROCUREMENT INITIATIVE

1. To encourage employers to participate in apprenticeship training, Contractors bidding on construction and maintenance contracts by Public Works and Government Services Canada (PWGSC) are being asked to sign a voluntary certification, signaling their commitment to hire and train apprentices.
2. Canada is facing skills shortages across various sectors and regions, especially in the skilled trades. Equipping Canadians with skills and training is a shared responsibility. In Economic Action Plan (EAP) 2013, the Government of Canada made a commitment to support the use of apprentices in federal construction and maintenance contracts. Contractors have an important role in supporting apprentices through hiring and training and are encouraged to certify that they are providing opportunities to apprentices as part of doing business with the Government of Canada.
3. Through the Economic Action Plan 2013 and support for training programs, the Government of Canada is encouraging apprenticeships and careers in the skilled trades. In addition, the government offers a tax credit to employers to encourage them to hire apprentices. Information on this tax measure administered by the Canada Revenue Agency can be found at: www.cra-arc.gc.ca. Employers are also encouraged to find out what additional information and supports are available from their respective provincial or territorial jurisdiction.
4. Signed certifications (Appendix 3) will be used to better understand contractor use of apprentices on Government of Canada maintenance and construction contracts and may inform future policy and program development.
5. The Contractor hereby certifies the following:

In order to help meet demand for skilled trades people, the Contractor agrees to use, and require its subcontractors to use, reasonable commercial efforts to hire and train registered apprentices, to strive to fully utilize allowable apprenticeship ratios* and to respect any hiring requirements prescribed by provincial or territorial statutes

The Contractor hereby consents to this information being collected and held by PWGSC, and Employment and Social Development Canada to support work to gather data on the hiring and training of apprentices in federal construction and maintenance contracts.

To support this initiative, a voluntary certification signaling the Contractor's commitment to hire and train apprentices is available at Appendix 3.

If you accept fill out and sign Appendix 3.

** The journey person-apprentice ratio is defined as the number of qualified/certified journeypersons that an employer must employ in a designated trade or occupation in order to be eligible to register an apprentice as determined by provincial/territorial (P/T) legislation, regulation, policy directive or by law issued by the responsible authority or agency.*

 - (a) all salaries, wages and traveling expenses incurred by *Canada* in respect of persons overseeing the performance of the *Work* during the period of delay;
 - (b) the cost incurred by *Canada* as a result of the inability to use the completed *Work* for the period of delay; and

- 3) Canada may waive the right of *Canada* to the whole or any part of the amount payable by the *Contractor* pursuant to paragraph 2) of GC5.10 if, in the opinion of Canada, it is in the public interest to do so.

- 3) A settled claim is deemed to be outstanding from the day immediately following the date the said claim would have been due and payable under the *Contract* had it not been disputed.
- 4) *Canada* shall pay to the *Contractor* simple interest on the amount of a settled claim at the Average Bank Rate plus 3 per cent per annum from the date the settled claim was deemed to be outstanding until the day prior to the date of payment.

GC6.2 CHANGES IN SUBSURFACE CONDITIONS

- 1) If, during the performance of the *Work*, the *Contractor* encounters subsurface conditions that are substantially different from the subsurface conditions described in the tender documents supplied to the *Contractor*, or a reasonable assumption of fact based thereon, the *Contractor* shall give notice to *Canada* immediately upon becoming aware of the situation.

- 4) *Canada* may, at any time, enlist the services of experts to assist in the investigation, examination, taking of measurements or other such recordings, placing of permanent protection around or removing of the object, item or thing encountered by the *Contractor*, and the *Contractor* shall, to the satisfaction of *Canada*, allow them access and cooperate with them in the carrying out of their duties and obligations.
- 5) Human remains, archaeological remains and items of historical or scientific interest encountered at the site of the *Work* shall be deemed to be the property of *Canada*.

GC6.4 DETERMINATION OF PRICE

GC6.4.1 Price Determination Prior to Undertaking Changes

- 1) If a Lump Sum Arrangement applies to the Contract or a part thereof, the price of any change shall be the aggregate estimated cost of labour, Plant and Material that is required for the change as agreed upon in writing by the Contractor and Canada plus an allowance for supervision, co-ordination, administration, overhead, margin and the risk of undertaking the work within the stipulated amount, which allowance shall be equal to
 - (a) 20 percent of the aggregate costs referred to herein for that portion of the Work done by the Contractor's own forces, if the aggregate cost of the Work does not exceed \$50,000;
 - (b) 15 percent of the aggregate costs referred to herein for that portion of the Work that is done by subcontract, if the aggregate cost of the Work does not exceed \$50,000; or

 - (i) if the aggregate cost of the Work exceeds \$50,000; or

- 3) A price per unit referred to in paragraph 2) of GC6.4.1 shall be determined on the basis of the aggregate estimated cost of labour, Plant and Material that is required for the additional item as agreed upon by the Contractor and Canada, plus an allowance determined in accordance with paragraph 1) of GC6.4.1.
- 4) To facilitate approval of the price of the change or the additional price per unit as applicable, the Contractor shall submit a cost estimate breakdown identifying, as a minimum, the estimated cost of labour, Plant, Material, each subcontract amount, and the amount of the allowance.
- 5) If no agreement is reached as contemplated in paragraph 1) of GC6.4.1, the price shall be determined in accordance with GC6.4.2.
- 6) If no agreement is reached, as contemplated in paragraphs 2) and 3) of GC6.4.1, Canada shall determine the class and the unit of measurement of the item of labour, Plant or Material and the price per unit shall be determined in accordance with GC6.4.2.

GC6.4.2 Price Determination Following Completion of Changes

- 1) If it is not possible to predetermine, or if there is failure to agree upon the price of a change in the Work, the price of the change shall be equal to the aggregate of
 - (a) all reasonable and proper amounts actually expended or legally payable by the Contractor in respect of the labour, Plant and Material that fall within one of the classes of expenditure described in paragraph 2) of GC6.4.2, that are directly attributable to the performance of the Contract;
 - (b) an allowance for profit and all other expenditures or costs, including overhead, general administration costs, financing and interest charges, in an amount that is equal to 10 percent of the sum of the expenses referred to in subparagraph 1)(a) of GC6.4.2; and
 - (c) interest on the amounts determined under subparagraphs 1)(a) and 1)(b) of GC6.4.2 calculated in accordance with GC5.12, "Interest on Settled Claims";
- 2) The cost of labour, Plant and Material referred to in subparagraph 1)(a) of GC6.4.2 shall be limited to the following categories of expenditure:
 - (a) payments to Subcontractors and Suppliers;
 - (b) wages, salaries, bonuses and, if applicable, travel and lodging expenses of employees of the Contractor located at the site of the Work and that portion of wages, salaries, bonuses and, if applicable, travel and lodging expenses of personnel of the Contractor generally employed at the head office or at a general office of the Contractor provided they are actually and properly engaged on the Work under the Contract;
 - (c) assessments payable under any statutory authority relating to workers' compensation, employment insurance, pension plan or holidays with pay, provincial health or insurance plans, environmental reviews, and Applicable Taxes collection costs;
 - (d) rent that is paid for Plant, or an amount equivalent to the said rent if the Plant is owned by the Contractor, that is necessary for and used in the performance of the Work, if the rent or the equivalent amount is reasonable and use of that Plant has been approved by Canada;
 - (e) payments for maintaining and operating Plant necessary for and used in the performance of the Work, and payments for effecting repairs thereto that, in the opinion of Canada, are necessary for the proper performance of the Contract, other than payments for any repairs to the Plant arising out of defects existing before its allocation to the Work;
 - (f) payments for Material that is necessary for and incorporated in the Work, or that is necessary for and consumed in the performance of the Contract;
 - (g) payments for preparation, delivery, handling, erection, installation, inspection, protection and removal of the Plant and Material necessary for and used in the performance of the Contract; and
 - (h) any other payments made by the Contractor with the approval of Canada that are necessary for the performance of the Contract in accordance with the Contract Documents.

GC6.4.3 Price Determination - Variations in Tendered Quantities

- 1) Except as provided in paragraphs 2), 3), 4) and 5) of GC6.4.3, if it appears that the final quantity of labour, Plant and Material under a price per unit item shall exceed or be less than the estimated tendered quantity, the Contractor shall perform the Work or supply the Plant and Material required to complete the item and payment shall be made for the actual Work performed or Plant and Material supplied at the price per unit set out in the Contract.

-
- 2) If the final quantity of the price per unit item exceeds the estimated tendered quantity by more than 15 percent, either party to the Contract may make a written request to the other party to negotiate an amended price per unit for that portion of the item which exceeds 115 percent of the estimated tendered quantity, and to facilitate approval of any amended price per unit, the Contractor shall, on request, provide Canada with
 - (a) detailed records of the actual cost to the Contractor of performing or supplying the tendered quantity for the price per unit item up to the time the negotiation was requested; and
 - (b) the estimated unit cost of labour, Plant and Material required for the portion of the item that is in excess of 115 percent of the tendered quantity.
 - 3) If agreement is not reached as contemplated in paragraph 2) of GC6.4.3, the price per unit shall be determined in accordance with GC6.4.2.
 - 4) If it appears that the final quantity of labour, Plant and Material under a price per unit item shall be less than 85 percent of the estimated tendered quantity, either party to the Contract may make a written request to the other party to negotiate a change to the price per unit for the item if
 - (a) there is a demonstrable difference between the unit cost to the Contractor of performing or supplying the estimated tendered quantity and the unit cost to the Contractor for performing or supplying the final quantity; and
 - (b) the difference in unit cost is due solely to the decrease in quantity and not to any other cause.
 - 5) For the purposes of the negotiation referred to in paragraph 4) of GC6.4.3
 - (a) the onus of establishing, justifying and quantifying a proposed change lies with the party making the request for negotiation; and
 - (b) in no event shall the total price for an item that has been amended as a result of a reduction in quantity pursuant to paragraph 4) of GC6.4.3 exceed the amount that would have been payable to the Contractor had 85 percent of the tendered quantity actually been performed or supplied.

GC6.5 DELAYS AND EXTENSION OF TIME

- 1) Upon application of the Contractor made before the date first fixed for completion of the Work or before any other date previously fixed under this clause, Canada may extend the time for completion of the Work by fixing a new date if Canada determines that causes beyond the control of the Contractor have delayed its completion.
- 2) The Contractor's application shall be accompanied by the written consent of the bonding company whose bond forms part of the Contract Security.
- 3) Subject to paragraph 4) of GC6.5, no payment, other than a payment that is expressly stipulated in the Contract, shall be made by Canada to the Contractor for any extra expense, loss or damage incurred or sustained by the Contractor due to delay, whether or not the delay is caused by circumstances beyond the control of the Contractor.
- 4) If the Contractor incurs or sustains any extra expense or any loss or damage that is directly attributable to any neglect or delay that occurs after the date of the Contract on the part of Canada in providing any information or in doing any act that the Contract either expressly requires Canada to do or that would ordinarily be done by an owner in accordance with the practice of the trade, the Contractor shall give Canada written notice of intention to claim for that extra expense or loss or damage within ten working days of the date the neglect or delay first occurred.
- 5) When the Contractor has given a notice referred to in paragraph 4) of GC6.5, the Contractor shall give Canada a written claim for the extra expense, loss or damage no later than 30 days after the date that a Certificate of Completion is issued and not afterwards.

-
- 6) A written claim referred to in paragraph 5) of GC6.5 shall contain a sufficient description of the facts and circumstances of the occurrence that is the subject of the claim to enable Canada to determine whether or not the claim is justified and the Contractor shall supply such further and other information for that purpose as Canada may require.
 - 7) If Canada determines that a claim referred to in paragraph 5) of GC6. 5 is justified, Canada shall make an extra payment to the Contractor in an amount that is calculated in accordance with GC6.4, "Determination of Price".
 - 8) If the Contractor fails to give a notice referred to in paragraph 4) and a claim referred to in paragraph 5) of GC6.5 within the times stipulated, an extra payment shall not be made to the Contractor in respect of the occurrence.

GC7 DEFAULT, SUSPENSION OR TERMINATION OF CONTRACT

GC7.1 TAKING THE WORK OUT OF THE CONTRACTOR'S HANDS

- 1) By giving notice in writing to the Contractor in accordance with GC2.3, "Notices", Canada, without any other authorization, may take all or any part of the Work out of the Contractor's hands, and may employ such means as Canada sees fit to have the Work completed if the Contractor
 - (a) fails to remedy any delay in the commencement or default in the diligent performance of the Work to the satisfaction of Canada within six days of Canada giving notice to the Contractor in writing in accordance with GC2.3, "Notices";
 - (b) defaults in the completion of any part of the Work within the time fixed for its completion by the Contract;
 - (c) becomes insolvent, or has committed an act of bankruptcy, and has neither made a proposal to its creditors nor filed a notice of intention to make such a proposal, pursuant to the Bankruptcy and Insolvency Act;
 - (d) abandons the work;
 - (e) makes an assignment of the Contract without the consent required by GC1.17, "Assignment", or
 - (f) otherwise fails to observe or perform any of the provisions of the Contract.
- 2) If the whole or any part of the Work is taken out of the Contractor's hands, the Contractor's right to any further payment that is due or accruing due under the Contract is, subject only to paragraph 3) of GC7.1, extinguished, and the Contractor is liable to pay Canada, upon demand, an amount that is equal to the amount of all loss and damage incurred or sustained by Canada in respect of the Contractor's failure to complete the Work.
- 3) If the whole or any part of the Work that is taken out of the Contractor's hands is completed by Canada, Canada may pay the Contractor the amount, if any, of the holdback or a progress claim as determined by Canada that had accrued and was due prior to the date on which the Work was taken out of the Contractor's hands and that is not required for the purposes of having the Work performed or of compensating Canada for any other loss or damage incurred or sustained by reason of the Contractor's default.
- 4) The taking of the Work or any part thereof out of the Contractor's hands does not relieve the Contractor from any obligation under the Contract or imposed by law except the obligation to complete the performance of that part of the Work that was taken out of the Contractor's hands.
- 5) If the Work or any part thereof is taken out of the Contractor's hands, all Plant and Material and the interest of the Contractor, or its suppliers or subcontractors at any tier, in all real property, licences, powers and privileges acquired, used or provided by the Contractor, or its suppliers or subcontractors at any tier, under the Contract shall continue to be the property of Canada without compensation.

-
- 6) When Canada certifies that any Plant, Material, or any interest of the Contractor is no longer required for the purposes of the Work, or that it is not in the interests of Canada to retain that Plant, Material, or interest, it shall revert to the Contractor.
 - 7) If the Contractor has become insolvent or has committed an act of bankruptcy, and has either made a proposal to its creditors or filed a notice of intention to make such a proposal, pursuant to the Bankruptcy and Insolvency Act, the Contractor shall immediately forward a copy of the proposal or the notice of intention to Canada.

GC7.2 SUSPENSION OF WORK

- 1) When, in Canada's opinion, it is in the public interest to do so, Canada may require the Contractor to suspend performance of the Work either for a specified or an unspecified period, by giving a notice of suspension in writing to the Contractor in accordance with GC2.3, "Notices".
- 2) When a notice of suspension is received by the Contractor, the Contractor shall suspend all operations in respect of the Work except those that Canada determines are necessary for the care and preservation of the Work, Plant and Material.
- 3) During a period of suspension, the Contractor shall not remove any part of the Work, Plant or Material from its site without the consent of Canada.
- 4) If a period of suspension is 60 days or less, the Contractor shall resume the performance of the Work on the expiration of that period, and the Contractor is entitled to be paid the extra costs necessarily incurred by the Contractor as a result of the suspension, determined in accordance with GC6.4, "Determination of Price".
- 5) If a period of suspension is more than 60 days, Canada and the Contractor may agree that the performance of the Work shall be continued by the Contractor, and the Contractor shall resume performance of the Work subject to any terms and conditions agreed upon by Canada and the Contractor. If Canada and the Contractor do not agree that performance of the Work shall be continued by the Contractor, or upon the terms and conditions under which the Contractor shall continue the Work, the notice of suspension shall be deemed to be a notice of termination pursuant to GC7.3, "Termination of Contract".

GC7.3 TERMINATION OF CONTRACT

- 1) Canada may terminate the Contract at any time by giving a notice of termination in writing to the Contractor in accordance with GC2.3, "Notices".
- 2) If the Contractor receives a notice of termination, the Contractor shall forthwith cease all operations in performance of the Contract, subject to any conditions stipulated in the notice.
- 3) Subject to paragraph 4) of GC7.3, if the Contract is terminated, Canada shall pay the Contractor an amount determined to be due to the Contractor pursuant to GC6.4, "Determination of Price", less the aggregate of all amounts that were paid to the Contractor by Canada and all amounts that are due to Canada from the Contractor pursuant to the Contract.
- 4) In no event shall the total amount payable by Canada to the Contractor exceed the amount, calculated in accordance with GCS, "Terms of Payment", that would have been payable to the Contractor had the Contractor completed the Work.
- 5) Payment to the Contractor, if any, shall be made as soon as practicable under the circumstances.

GC7.4 SECURITY DEPOSIT - FORFEITURE OR RETURN

- 1) If the Work is taken out of the Contractor's hands, or the Contractor is in breach of, or in default under, the Contract, Canada may convert a security deposit to Canada's own use.

-
- 2) If Canada converts a security deposit, the amount realized shall be deemed to be an amount due from Canada to the Contractor under the Contract.
 - 3) Any balance of the amount realized that remains after payment of all losses, damage and claims of Canada and others shall be paid by Canada to the Contractor if, in the opinion of Canada, it is not required for the purposes of the Contract.

GC8 DISPUTE RESOLUTION

GC8.1 INTERPRETATION

- 1) "dispute" means any disagreement regarding any issue identified by the Contractor in the notice submitted to Canada in accordance with paragraph 2 of GC8.3, "Notice of Dispute", and includes any claim by the Contractor arising from such disagreement and any counterclaim by Canada, but does not include any claim by either party for punitive or exemplary damages, injury to persons, death, or any claim based on an allegation of libel or slander.
- 2) The alternative dispute resolution procedures set out in GC8, do not apply to any claim by Canada against the Contractor except any counterclaim in a dispute as defined in paragraph 1 of GC8.1, including, but not limited to, any claim of setoff regarding any amount due to Canada under GC5.10, "Assessment and Damages for Late Completion".

GC8.2 CONSULTATION AND CO-OPERATION

- 1) The parties agree to maintain open and honest communication throughout the performance of the Contract.
- 2) The parties agree to consult and co-operate with each other in the furtherance of the Work and the resolution of problems or differences that may arise.

GC8.3 NOTICE OF DISPUTE

- 1) Any difference between the parties to the Contract of any nature arising out of or in connection with the Contract which could result in a claim by the Contractor against Canada, and which is not settled by consultation and co-operation as envisaged in GC8.2, "Consultation and Co-operation", shall be resolved in the first instance by Canada, whose written decision or direction shall be final and binding subject only to the provisions of GC8. Such written decision or direction includes, but is not limited to, any written decision or direction by Canada under any provision of the General Conditions.
- 2) The Contractor shall be deemed to have accepted the decision or direction of Canada referred to in paragraph 1) of GC8.3 and to have expressly waived and released Canada from any claim in respect of the particular matter dealt with in that decision or direction unless, within 15 working days after receipt of the decision or direction, the Contractor submits to Canada a written notice of dispute requesting formal negotiation under GC8.4, "Negotiation". Such notice shall refer specifically to GC8.4, "Negotiation", and shall specify the issues in contention and the relevant provisions of the Contract.
- 3) The giving of a written notice in accordance with paragraph 2) of GC8.3 shall not relieve the Contractor from complying with the decision or direction that is the subject of the dispute. Such compliance, however, shall not be construed as an admission by the Contractor of the correctness of such decision or direction.
- 4) If a dispute is not resolved promptly, Canada shall give such instructions as, in Canada's opinion, are necessary for the proper performance of the Work and to prevent delays pending a resolution of the matter. Unless Canada terminates the Contract, orders the Contractor to suspend the Work, or takes the Work out of the hands of the Contractor, the Contractor shall continue to perform the Work in accordance with the provisions and requirements of the Contract and the instructions of Canada. Such performance shall not prejudice any claim that the Contractor may have.

-
- 5) Nothing in GC8 relieves the Contractor from its obligation to provide any other notice required by the Contract within the time specified in the Contract, including but not limited to, any notice required under GC6.2, "Changes in Subsurface Conditions".

GC8.4 NEGOTIATION

- 1) Within 10 working days after receipt by Canada of a notice referred to in paragraph 2) of GC8.3, "Notice of Dispute", or within such other period of time as may be mutually agreed to, the parties shall commence formal negotiations in order to resolve the dispute. Negotiations shall occur initially between representatives of the Contractor and Canada who play a direct supervisory role in the performance, administration or management of the Contract.
- 2) If the representatives referred to in paragraph 1) of GC8.4 are unable to resolve some or all of the issues which are the subject of the negotiations within 10 working days, the parties shall refer the remaining issues which are in dispute to a second level of negotiation between a principal or principals of the Contractor and a senior level manager or senior level managers representing Canada.
- 3) If negotiations fail to resolve the dispute within 30 working days from the date of delivery of the notice referred to in paragraph 2) of GC8.3, "Notice of Dispute", or within such longer period as may have been agreed to by the parties, the Contractor may, by giving written notice to Canada, in accordance with GC2.3, "Notices", within 10 working days from the end of such period, request that mediation be undertaken to assist the parties to reach agreement on the outstanding issues.
- 4) If the Contractor does not request mediation within the period permitted by paragraph 3) of GC8.4, the Contractor shall be deemed to have accepted the decision or direction of Canada under paragraph 1) of GC8.3, "Notice of Dispute", and to have expressly waived and released Canada from any claim in respect of the particular matter dealt with in that decision or direction.

GC8.5 MEDIATION

- 1) If the Contractor has requested mediation in accordance with paragraph 3) of GC8.4, "Negotiation", mediation shall be conducted in accordance with GC8.8, "Rules for Mediation of Disputes".
- 2) If a Project Mediator has not previously been appointed for the purposes of the Contract, a Project Mediator shall be appointed in accordance with GC8.8, "Rules for Mediation of Disputes", forthwith after delivery of a notice in accordance with paragraph 3) of GC8.4, "Negotiation", requesting mediation.
- 3) If the dispute has not been resolved within
 - (a) 10 working days following the appointment of a Project Mediator in accordance with paragraph 2) of GC8.5, if a Project Mediator was not previously appointed;
 - (b) 10 working days following receipt by Canada of a written notice in accordance with paragraph 3) of GC8.4, "Negotiation", if a Project Mediator was previously appointed; or
 - (c) such other longer period as may have been agreed to by the parties;

the Project Mediator shall terminate the mediation by giving written notice to the parties stating the effective date of termination.

GC8.6 CONFIDENTIALITY

- 1) All information exchanged during alternative dispute resolution procedures, by whatever means, shall be without prejudice and shall be treated as confidential by the parties and their representatives, unless otherwise required by law. However, evidence that is independently admissible or discoverable shall not be rendered inadmissible or non-discoverable by virtue of its use during an alternative dispute resolution process.

GC8.7 SETTLEMENT

- 1) Any agreement to settle all or any part of a dispute, by whatever means, shall be in writing and be signed by the parties or their authorized representatives.

APPENDIX 2 – SET-ASIDE PROGRAM FOR ABORIGINAL BUSINESS

Requirements for the Set-aside Program for Aboriginal Business

(Annex 9.4 of the Supply Policy Manual) – 2012-12-13)

1. Who is eligible?

- a. An Aboriginal business, which can be:
 - i. a band as defined by the Indian Act
 - ii. a sole proprietorship
 - iii. a limited company
 - iv. a co-operative
 - v. a partnership
 - vi. a not-for-profit organization

in which Aboriginal persons have at least 51 percent ownership and control,

OR

- b. A joint venture consisting of two or more Aboriginal businesses or an Aboriginal business and a non-Aboriginal business(es), provided that the Aboriginal business(es) has at least 51 percent ownership and control of the joint venture.

When an Aboriginal business has six or more full-time employees at the date of submitting the bid, at least thirty-three percent of them must be Aboriginal persons, and this ratio must be maintained throughout the duration of the contract.

The supplier must certify in its submitted bid that it is an Aboriginal business or a joint venture constituted as described above.

2. Are there any other requirements attached to suppliers in the Set-Aside Program for Aboriginal Business?

Yes

- a. In respect of a contract, (goods, service or construction), on which a supplier is making a proposal which involves subcontracting, the supplier must certify in its bid that at least thirty-three percent of the value of the work performed under the contract will be performed by an Aboriginal business. Value of the work performed is considered to be the total value of the contract less any materials directly purchased by the contractor for the performance of the contract. Therefore, the supplier must notify and, where applicable, bind the subcontractor in writing with respect to the requirements that the Aboriginal Set-Aside Program (the Program) may impose on the subcontractor or subcontractors.
- b. The supplier's contract with a subcontractor must also, where applicable, include a provision in which the subcontractor agrees to provide the supplier with information, substantiating its compliance with the Program, and authorize the supplier to have an audit performed by Canada to examine the subcontractor's records to verify the information provided. Failure by the supplier to exact or enforce such a provision will be deemed to be a breach of contract and subject to the civil consequences referred to in this document.
- c. As part of its bid, the supplier must complete the Certification of Requirements for the Set-Aside Program for Aboriginal Business(certification) stating that it:
 - i. meets the requirements for the Program and will continue to do so throughout the duration of the contract;
 - ii. will, upon request, provide evidence that it meets the eligibility criteria;
 - iii. is willing to be audited regarding the certification; and

- iv. acknowledges that if it is found NOT to meet the eligibility criteria, the supplier shall be subject to one or more of the civil consequences set out in the certification and the contract.

See Standard Acquisition Clauses and Conditions (SACC) Manual clause [A3000T](#).

3. How must the business prove that it meets the requirements?

- a. It is not necessary to provide evidence of eligibility at the time the bid is submitted. However, the business should have evidence of eligibility ready in case it is audited.
- b. The civil consequences of making an untrue statement in the bid documents, or of not complying with the requirements of the Program or failing to produce satisfactory evidence to Canada regarding the requirements of the Program, may include: forfeiture of the bid deposit; retention of the holdback; disqualification of the business from participating in future contracts under the program; and/or termination of the contract. In the event that the contract is terminated because of an untrue statement or non-compliance with the requirements of the Program, Canada may engage another contractor to complete the performance of the contract and any additional costs incurred by Canada shall, upon the request of Canada, be borne by the business.

4. What evidence may be required from the business?

- a. Ownership and control
 - i. Evidence of ownership and control of an Aboriginal business or joint venture may include incorporation documents, shareholders' or members' register; partnership agreements; joint venture agreements; business name registration; banking arrangements; governance documents; minutes of meetings of Board of Directors and Management Committees; or other legal documents.
 - ii. Ownership of an Aboriginal business refers to "beneficial ownership" i.e., who is the real owner of the business. Canada may consider a variety of factors to satisfy whether Aboriginal persons have true and effective control of an Aboriginal business. (See [Appendix A Set-aside Program for Aboriginal Business](#) for a list of the factors, which may be considered by Canada.)
- b. Employment and employees
 - i. Where an Aboriginal business has six or more full-time employees at the date of submitting the certification and is required by Canada to substantiate that at least 33 percent of the full-time employees are Aboriginal, the business must, upon request by Canada, immediately provide a completed Owner/Employee Certification form for each full-time employee who is Aboriginal. See SACC Manual clause [A3001T](#).
 - ii. Evidence as to whether an employee is or is not full-time and evidence as to the number of full-time employees may include payroll records, written offers for employment, and remittance and payroll information maintained for Canada Revenue Agency purposes as well as information related to pension and other benefit plans.
 - iii. A full-time employee, for the purpose of this program, is one who is on the payroll, is entitled to all benefits that other full-time employees of the business receive, such as pension plan, vacation pay and sick leave allowance, and works at least 30 hours a week. It is the number of full-time employees on the payroll of the business at the date of bid submission that determines the ratio of Aboriginal to total employees of the business for the purpose of establishing eligibility under the Program.
 - iv. Owners who are Aboriginal and full-time employees who are Aboriginal must be ready to provide evidence in support of such status. The Owner/Employee Certification to be completed by each owner and full-time employee who is Aboriginal shall state that the person meets the eligibility criteria and that the information supplied is true and complete. This certification shall provide the person's consent to the verification of the information submitted.

5. Subcontracts

- a. Evidence of the proportion of work done by subcontractors may include contracts between the contractor and subcontractors, invoices, and paid cheques.
- b. Evidence that a subcontractor is an Aboriginal business (where this is required to meet the minimum Aboriginal content of the contract) is the same as evidence that a prime contractor is an Aboriginal business.

6. Who is an Aboriginal Person for Purposes of the Set-Aside Program for Aboriginal Business?

- a. An Aboriginal person is an Indian, Metis or Inuit who is ordinarily resident in Canada.
- b. Evidence of being an Aboriginal person will consist of such proof as:

5.0 Disposal, Treatment, and Hazardous Waste Management Facilities

In the tables below, identify the parties that are the Disposal Facility, Treatment Facility, and Hazardous Waste Management Facility that are proposed to carry out the work under the Contract. **At least one Disposal Facility and one Hazardous Waste Management Facility must be identified**, and if the Bidder intends to perform treatment of sediment/soil, at least one Treatment Facility must be identified (note that sediment/soil treatment is optional as per the Specifications). **More than one facility of each type may be identified, but ALL facilities identified must meet the stated requirements.**

ALL facilities identified in the tables below must also be identified in Section 1.0 above – they must be part of the Bidder's Team for the Esquimalt Graving Dock Waterlot - Phase 2 South Jetty Under-Pier Sediment Remediation Project. Disposal Facilities identified in the table below must also be identified in Section 2.0 (item 14) as meeting the experience requirement. Hazardous Waste Management Facilities identified in the table below must also be identified in Section 2.0 (item 15) as meeting the experience requirement. **The facilities identified in this Qualification Form must be the facilities used under the Contract. If more than one facility of each kind is identified, at least one of the facilities identified is required to be the resource used; all additional facilities of that kind identified must be available as alternates.**

ALL facilities identified in this Qualification Form must meet the stated requirements. If any one of the facilities proposed does not meet the requirements, the Bidder shall be disqualified and no further consideration will be given to the Bidder.

ALL facilities identified must be located in Canada, must exist and be operational at the time of tender closing, and be designed, constructed, and operated to prevent any pollution from being caused by the facility outside the area of the facility. At the time of tender closing the facilities must hold a valid and subsisting permit(s), license(s), certificate(s), approval(s), or other form(s) of authorization issued under Laws and Regulations by a Province or Territory for either disposal, treatment and disposal, or treatment of soil, sediment or other material (of the environmental quality identified in the solicitation documents) that is not suitable for industrial, commercial, urban park, residential, agricultural, wildlands, or any other land use specified in the British Columbia Contaminated Sites Regulation.

For the purposes of this Qualification Form, "operational" means "in or ready for use", and being authorized by a Province or Territory under Laws and Regulations to complete the services required under the Contract. For Disposal Facilities and Hazardous Waste Management Facilities this means in or ready for use to receive, process, and place soil, sediment or other material in its final disposal location at the facility as identified in the permit(s) and/or authorization(s). For Treatment Facilities this means in or ready for use to receive, process, and treat soil, sediment or other material at the facility as identified in the permit(s) and/or authorization(s).

For Disposal Facilities the "valid and subsisting permit(s), license(s), certificate(s), approval(s), other form(s) of authorization" at the time of tender closing must authorize all activities required to complete disposal, including the placement of soil, sediment or other material in its final disposal location at the facility.

For Hazardous Waste Management Facilities the "valid and subsisting permit(s), license(s), certificate(s), approval(s), other form(s) of authorization" at the time of tender closing must authorize all activities required to complete disposal (or treatment and disposal) of Hazardous Waste, including the placement of the material in its final disposal location at the facility.

If the Bidder-Prime Contractor plans to treat Hazardous Waste at an authorized Treatment Facility so that the treated material is no longer considered Hazardous Waste, a facility meeting the requirements of a Disposal Facility may be proposed as the Hazardous Waste Management Facility. The intent is to identify the facility where the material originally classified as Hazardous Waste will be placed for final disposal. In such a case the intent to treat the Hazardous Waste at a Treatment Facility prior to disposal should be documented in the letter provided by the Hazardous Waste Management Facility proposed, as required below.

For Treatment Facilities the "valid and subsisting permit(s), license(s), certificate(s), approval(s), other form(s) of authorization" at the time of tender closing must authorize all activities required to complete treatment of soil, sediment or

other material at the facility. If the Bidder-Prime Contractor plans to treat Hazardous Waste at the Treatment Facility(ies) proposed, the facility(ies) must be authorized to treat Hazardous Waste quality material.

As part of their due diligence, Bidders should verify that the proposed facilities meet all requirements. It is suggested that Bidders confirm directly with the facilities, and also with the Province or Territory. Canada will undertake its own due diligence review to verify if the proposed facilities meet the requirements.

In carrying out the work of the Contract, disposal (or treatment and disposal) of dredged and excavated material (contaminated sediments, soil and Dredge Debris) must be performed at a Disposal Facility, Treatment Facility, or Hazardous Waste Management Facility in accordance with the Specifications.

As per the Specifications, the Bidder shall assume that all non-Hazardous Waste Quality Material and non-reuseable/recyclable debris will require disposal at a Disposal Facility according to the British Columbia Contaminated Sites Regulation (CSR) Industrial Land use standards (i.e., waste quality or IL+ waste).

As part of the bid submission, Bidder's MUST provide:

(1) A copy of the valid and subsisting permit(s), license(s), certificate(s), approval(s), or other form(s) of authorization issued by a Province or Territory for ALL facilities identified. If authorizations are issued by more than one Ministry (e.g. Ministry of Environment and Ministry of Energy and Mines), the authorizations from each Ministry must be provided. If the operations of the facility take place at multiple locations, the permits or other forms of authorization issued for each of the locations must be provided.

And;

(2) Letters from the Disposal Facility(ies) and Hazardous Waste Management Facility(ies) owners or operators indicating that at the time of tender closing the facility(ies) are operational (as defined herein), and that **prior to the final Contract completion date of August 15, 2016** can accept the volume of contaminated sediment/soil as described in the Specifications and solicitation documents, can complete the final disposal and placement of the sediment/soil in its final disposal location at the facility, and can issue all associated Certificates of Disposal. The **total** of the sediment/soil volume indicated from all of the letter(s) combined must be at least 40,000 m³ (sum of required dredging and contingency re-dredging as per the Specifications).

5.0 Disposal, Treatment, and Hazardous Waste Management Facilities

In the tables below, identify the parties that are the Disposal Facility, Treatment Facility, and Hazardous Waste Management Facility that are proposed to carry out the work under the Contract. **At least one Disposal Facility and one Hazardous Waste Management Facility must be identified**, and if the Bidder intends to perform treatment of sediment/soil, at least one Treatment Facility must be identified (note that sediment/soil treatment is optional as per the Specifications). **More than one facility of each type may be identified, but ALL facilities identified must meet the stated requirements.**

ALL facilities identified in the tables below must also be identified in Section 1.0 above – they must be part of the Bidder’s Team for the Esquimalt Graving Dock Waterlot - Phase 2 South Jetty Under-Pier Sediment Remediation Project. Disposal Facilities identified in the table below must also be identified in Section 2.0 (item 14) as meeting the experience requirement. Hazardous Waste Management Facilities identified in the table below must also be identified in Section 2.0 (item 15) as meeting the experience requirement. **The facilities identified in this Qualification Form must be the facilities used under the Contract. If more than one facility of each kind is identified, at least one of the facilities identified is required to be the resource used; all additional facilities of that kind identified must be available as alternates.**

ALL facilities identified in this Qualification Form must meet the stated requirements. If any one of the facilities proposed does not meet the requirements, the Bidder shall be disqualified and no further consideration will be given to the Bidder.

ALL facilities identified must be located in Canada, must exist and be operational at the time of tender closing, and be designed, constructed, and operated to prevent any pollution from being caused by the facility outside the area of the facility. At the time of tender closing the facilities must hold a valid and subsisting permit(s), license(s), certificate(s), approval(s), or other form(s) of authorization issued under Laws and Regulations by a Province or Territory for either disposal, treatment and disposal, or treatment of soil, sediment or other material (of the environmental quality identified in the solicitation documents) that is not suitable for industrial, commercial, urban park, residential, agricultural, wildlands, or any other land use specified in the British Columbia Contaminated Sites Regulation.

For the purposes of this Qualification Form, “operational” means “in or ready for use”, and being authorized by a Province or Territory under Laws and Regulations to complete the services required under the Contract. For Disposal Facilities and Hazardous Waste Management Facilities this means in or ready for use to receive,

process, and place soil, sediment or other material in its final disposal location at the facility as identified in the permit(s) and/or authorization(s). For Treatment Facilities this means in or ready for use to receive, process, and treat soil, sediment or other material at the facility as identified in the permit(s) and/or authorization(s).

For Disposal Facilities the “valid and subsisting permit(s), license(s), certificate(s), approval(s), other form(s) of authorization” at the time of tender closing must authorize all activities required to complete disposal, including the placement of soil, sediment or other material in its final disposal location at the facility.

For Hazardous Waste Management Facilities the “valid and subsisting permit(s), license(s), certificate(s), approval(s), other form(s) of authorization” at the time of tender closing must authorize all activities required to complete disposal (or treatment and disposal) of Hazardous Waste, including the placement of the material in its final disposal location at the facility.

If the Bidder-Prime Contractor plans to treat Hazardous Waste at an authorized Treatment Facility so that the treated material is no longer considered Hazardous Waste, a facility meeting the requirements of a Disposal Facility may be proposed as the Hazardous Waste Management Facility. The intent is to identify the facility where the material originally classified as Hazardous Waste will be placed for final disposal. In such a case the intent to treat the Hazardous Waste at a Treatment Facility prior to disposal should be documented in the letter provided by the Hazardous Waste Management Facility proposed, as required below.

For Treatment Facilities the “valid and subsisting permit(s), license(s), certificate(s), approval(s), other form(s) of authorization” at the time of tender closing must authorize all activities required to complete treatment of soil, sediment or other material at the facility. If the Bidder-Prime Contractor plans to treat Hazardous Waste at the Treatment Facility(ies) proposed, the facility(ies) must be authorized to treat Hazardous Waste quality material.

As part of their due diligence, Bidders should verify that the proposed facilities meet all requirements. It is suggested that Bidders confirm directly with the facilities, and also with the Province or Territory. Canada will undertake its own due diligence review to verify if the proposed facilities meet the requirements.

In carrying out the work of the Contract, disposal (or treatment and disposal) of dredged and excavated material (contaminated sediments, soil and Dredge Debris) must be performed at a Disposal Facility, Treatment Facility, or Hazardous Waste Management Facility in accordance with the Specifications.

As per the Specifications, the Bidder shall assume that all non-Hazardous Waste Quality Material and non-reuseable/recyclable debris will require disposal at a

Disposal Facility according to the British Columbia Contaminated Sites Regulation (CSR) Industrial Land use standards (i.e., waste quality or IL+ waste).

As part of the bid submission, Bidder's MUST provide:

(1) A copy of the valid and subsisting permit(s), license(s), certificate(s), approval(s), or other form(s) of authorization issued by a Province or Territory for ALL facilities identified. If authorizations are issued by more than one Ministry (e.g. Ministry of Environment and Ministry of Energy and Mines), the authorizations from each Ministry must be provided. If the operations of the facility take place at multiple locations, the permits or other forms of authorization issued for each of the locations must be provided.

And;

(2) Letters from the Disposal Facility(ies) and Hazardous Waste Management Facility(ies) owners or operators indicating that at the time of tender closing the facility(ies) are operational (as defined herein), and that **prior to the final Contract completion date of August 15, 2016** can accept the volume of contaminated sediment/soil as described in the Specifications and solicitation documents, can complete the final disposal and placement of the sediment/soil in its final disposal location at the facility, and can issue all associated Certificates of Disposal. The **total** of the sediment/soil volume indicated from all of the letter(s) combined must be at least 40,000 m³ (sum of required dredging and contingency re-dredging as per the Specifications).

1. Disposal Facility(ies)

Name of Disposal Facility	Location (city/town, province/territory)	Number or identifier of permit(s), license(s), certificate(s), approval(s), or other form(s) of authorization	Province or Territory that issued the permit, license, certificate, approval, or other form of authorization
