**This amendment 001 is raised to answer questions and modify the solicitation as follows:**

## **1- QUESTIONS / ANSWERS :**

**Q.1:** Annex A, 5.2.3 - clarification on the tolerances. CGSB requires that height adjustable tables have a minimum 1" clearance (pinch space) on three sides of the surfaces which would mean that the tolerances should be minimum 50mm on the width (25mm on each side) and 25mm on the depth (25mm on the non-user edge). Please confirm that you would like CGSB 44.227 tolerances to apply and that the Annex A specification can be changed as above.

**A.1:** Yes - we want to meet the CGSB 44.227 tolerances

**Q.2:** Annex A, 5.2.5.2 suggests that electrical or manual crank surfaces could be offered, but Annex B suggests that you want specific surfaces to be either electric or manual. Priority of Documents (6.10) gives Annex A precedence over Annex B. Can you confirm that in this case, the descriptions in Annex B has priority over the statement in Annex A?

**A.2:** Annex A identifies the acceptable height adjustable mechanisms whereas Annex B identifies the specific quantities of each surface required for this requirement

## **2- MODIFICATION(S) :**

A) At part 2.1 Standard Instructions, Clauses and Conditions

INSERT:

### 3. List of Names

- a. Bidders who are incorporated or who are a sole proprietorship, including those bidding as a joint venture, have already provided a list of names of all individuals who are directors of the Bidder, or the name of the owner(s), at the time of submitting an arrangement under the Request for Supply Arrangement (RFSA).
- b. These Bidders must immediately inform Canada in writing of any changes affecting the list of directors during this procurement process.

B) At Annexe A - 5.2. Freestanding Height adjustable desks

**Delete:** 5.2.3 Tolerances for dimensions must be up to 25mm less than the width dimension and up to 12.7mm (0.5 inches) less than the depth dimension.

**Insert:** 5.2.3 The tolerances should be minimum 50mm on the width (25mm on each side) and 25mm on the depth (25mm on the non-user edge)
