Title: *Hybrid Safety Warning Systems for Railway-Roadway Grade Crossings*

The purpose of this amendment is to amend the solicitation document as detailed below, extend to solicitation closing date, add an Attachment 3 – “Questions and Answers”, and to respond to questions received from Industry.

1) At page 27 of 35, **ANNEX A, STATEMENT OF WORK**, article 6.2 Literature Review:

DELETE: 6.2.1 The Contractor must arrange approval from government, rail and road officials for each jurisdiction identified in 6.2.3, as well as authorities, associations and institutions identified by local governments, to obtain literature, information and data required for this phase of the study.

INSERT: 6.2.1 The Contractor must arrange approval from government, rail and road officials for each jurisdiction identified in 6.2.2, as well as authorities, associations and institutions identified by local governments, to obtain literature, information and data required for this phase of the study.

2) Insert an Attachment 3 – “Questions and Answers”, to the solicitation document and insert the following questions and answers:

Q1. *Can we have someone from outside Canada (for instance someone from the USA) perform this work if they are based in Canada?*

A1. In accordance with clause A3050T, *Canadian Content Definition*, a minimum of 80% of the total bid price must be performed by individuals based in Canada. This means they must have a place of business in Canada where they conduct activities on a permanent basis and be accessible during normal working hours.

Q2. *In Attachment 1 to Part 3, Milestone No. 5 the last column reads: “No less than 10% of the total Contract value”. Would you please confirm that it means the amount should be more than 10% of the total Contract value?*

A2. Yes, this amount must be equal to or more than 10% of the total contract value.

Q3. *Section 1.1.4 Point Rated Technical Criteria, PR2.2 Principal Researcher Experience (10 points).*

The Description paragraph states “up to four relevant research projects”, yet the last column of Point Rated Scale states “Four or more relevant research projects”. If there are more than four relevant research projects, how would the Crown like the response to be formulated to comply with this requirement? How would it be rated?

A3. Full points will be given for four relevant research projects. No additional points will be awarded for more than four projects.

All other terms and conditions remain the same.
