

RFSO 15-22041

Q&A # 2

July 31, 2015

"Annex A – Statement of work" it describes "4 color printed right onto vinyl" also "Exterior Pocket: front, spine, and back transparent, 7.5 gr trap sheet"

NRC will remove the following from the RFP: "Exterior Pocket: front, spine, and back transparent, 7.5 gr trap sheet."

The current construction of your binders is the latter, where Printed Inserts are encapsulated under the clear.

Q1. Is this still the case?

A1. No printed inserts; NRC will print directly onto the binder.

(Please note; printing 4 color process directly to vinyl F/S/B is much more expensive than printing on paper stock and encapsulating)

Noted.

Also, NRC used to always supply the Printed Inserts.

Q2. Will NRC continue this practice or do you want us to supply them?

A2. There will be no more inserts as the process requires printing directly onto the binders.
