This Solicitation Amendment No. One (1) is raised to include the following addendum no. 1.

The following addendum to the tender documents is effective immediately. This addendum shall form part of the contract documents.

All other terms and conditions remain the same.

Addendum 1.

1. EXTENSION OF TIME

Notice is hereby given that the time for the reception of tenders previously due August 14, 2015 is hereby extended to 14:00 hours, August 20, 2015.

2. QUESTIONS AND ANSWERS

Q1. I am looking at the plans for the aforementioned project, the 3000 mm concrete pipe lengths shown are at 2.44 m where the pipe supplied in this market are 2.13 m long. In saying that, this will affect the weir spacing for this run.

A1. If the successful pipe supplier produces the 3000 mm diameter pipe in 2.13 m lengths, rather than the 2.44 m lengths shown on the drawing, then the spacing of the baffles can be reduced to 1.065 m.

Q2. Also, I didn't see any special mix requirements for the pipe, are we to follow NBDTI specifications?

A2. Yest NBDTI mix for Class 65-D RCP.

Q3. Lastly, what is the size required for the stainless steel straps, safe to assume NBDTI specs for these as well as per the attached detail?

A3. Yes the steel straps should be sized as per the NBDTI specifications.
