This amendment is raised to respond to questions received from the industry.

Question no1:

Can you provide estimated volumes (or historic volumes) for each Product Type, preferably broken down by Region?

Response no 1:

See provided electronic attachment. Filename: E60PD-14PAPR-USAGE.pdf

Question no 2:

Is it a requirement to bid on each section? For instance, if the Offeror does not offer pricing for an "agricultural" fibre product, will their bid be declared unresponsive?

Response no 2:

The offeror must offer pricing for each of the five (5) classes. Plesase refer to item 4.2 Basis of selection. Par 1, 2 and 3.

Question no 3:

Annex "A" Requirement - A.9 Technical Performance Tables

In three of the four A.9 Technical Performance Tables in Annex A - Requirement, the values for Stiffness (CD) and Stiffness (MD) are reversed from the values in the current standing offer E60PD-14PAPR. Would Canada please confirm the correct values?

Response no 3:

MD (Machine Direction) and CD (Cross Direction) refers to fiber alignment, paper stiffness is typically higher in Machine Direction as a result of this alignment of fibers. This requirement should not be confused with Long Grain and Short Grain which refers to the direction in which the paper is cut to size.

The values remain as specified.

Question no 4:

Appendix 1 - Instructions for Completing the Financial Offer Template
4. Field Descriptions and Input Instructions r)

In Appendix 1 4. r) the price requested under Purpose is for a quantity of one box whereas the Input Instructions is for one package. Would Canada please confirm the correct packaging unit?

Response no 4:

Delete

p) Price per Box (1 to 39)

Purpose: This field represents the price for one box of the paper offered for this line item when Users place an order between 1 and 39 boxes of paper.

Input instructions: The Offeror must enter a numerical value which represents its firm price for one box of the paper offered for this line item in dollars and cents separated by a period (23.12) without any spaces, dashes or special characters. . The amount represented in this field must be lower than the amount for the same line item in Column O. All values submitted will be rounded to 2 decimals.

q) Price per box (40 to 79)

Purpose: This field represents the price for one box of the paper offered for this line item when Users place an order between 40 and 79 boxes of paper.

Input instructions: The Offeror must enter a numerical value which represents its firm price for one box of the paper offered for this line item in dollars and cents separated by a period (23.12) without any spaces, dashes or special characters. The amount represented in this field must be lower than the amount for the same line item in Column P. All values submitted will be rounded to 2 decimals.

r) Price per box (80 and up)

Purpose: This field represents the price for one box of the paper offered for this line item when Users place an order of 80 boxes of paper or more.

Input instructions: The Offeror must enter a numerical value which represents its firm price for one package of the paper offered for this line item in dollars and cents separated by a period (23.12) without any spaces, dashes or special characters. . The amount represented in this field must be lower than the amount for the same line item in Column Q. All values submitted will be rounded to 2 decimals.

Insert

p) Price per pack (1 to 39 boxes)

Purpose: This field represents the price for one pack of the paper offered for this line item when Users place an order between 1 and 39 boxes of paper.

Input instructions: The Offeror must enter a numerical value which represents its firm price for one pack of the paper offered for this line item in dollars and cents separated by a period (23.12) without any spaces, dashes or special characters. . The amount represented in this field must be lower than the amount for the same line item in Column O. All values submitted will be rounded to 2 decimals.

q) Price per pack (40 to 79 boxes)

Purpose: This field represents the price for one pack of the paper offered for this line item when Users place an order between 40 and 79 boxes of paper.

Input instructions: The Offeror must enter a numerical value which represents its firm price for one pack of the paper offered for this line item in dollars and cents separated by a period (23.12) without any spaces, dashes or special characters. The amount represented in this field must be lower than the amount for the same line item in Column P. All values submitted will be rounded to 2 decimals.

Question no 5:

EFOT - Column J

The drop down menu in Column J of the EFOT limits the completion of the "Packs per Box" to using 5, 8 or 10 where some paper types, for example the high runnability tabloid size, are packaged as a PK of 500 Sheets, 4PKs per Carton (Box). Would Canada please amend the EFOT Column J to provide a drop down menu of that includes 4, 5, 8 or 10 PKs per Box?

Response no 5:

See most current version of EFOT provided as an electronic attachment.

Filename: EFOT_15PAPR-A_V1.1.xls (6Aug)

At Part III Paragraph 3.1.2

Insert

Offerors must submit their responses in the most current published version of the EFOT file.

All other terms and conditions remain the same
