Annex A	Statement of Work
Appendix A1	Elk Handling Protocol and Aerial Net Gunning Procedures
Appendix A2	Aircrew and Aircraft Requirements
Annex B	Basis of Payment
Annex C	Attestation and Proof of Compliance With Occupational Health and Safety (OHS)
Annex D	Insurance Requirements
Annex E	Bid Evaluation Criteria

PART 1 - GENERAL INFORMATION

1. Security Requirement

There is no security requirement associated with the requirement.

2. Statement of Work

The Work to be performed is detailed under Article 2 of the resulting contract clauses.

3. Debriefings

After contract award, bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within 15 working days of receipt of the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person.

PART 2 - BIDDER INSTRUCTIONS

1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2011-05-16) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

All reference to the Minister of Public Works and Government Services should be deleted and replaced with the Chief Executive Officer of Parks Canada. All reference to the Department of Public Works and Government Services should be deleted and replaced with Parks Canada Agency.

2. Submission of Bids

Bids must be submitted only to Parks Canada Agency (PCA) Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation.

3. Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than ten (10) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all bidders. Enquiries not submitted in a form

that can be distributed to all bidders may not be answered by Canada.

4. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Manitoba.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

PART 3 - BID PREPARATION INSTRUCTIONS

1. Bid Preparation Instructions

Canada requests that bidders provide their bid in separately bound sections as follows:

Section I: Technical Bid (1 hard copy)

Section II: Financial Bid (1 hard copy)

Section III: Certifications (1 hard copy)

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, bidders are encouraged to:

- 1) use paper containing fibre certified as originating from a sustainably-managed forest and/or containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Bid

In their technical bid, bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

Section II: Financial Bid

Bidders must submit their financial bid in accordance with the Basis of Payment. The total amount of Goods and Services Tax (GST) or Harmonized Sales Tax (HST) must be shown separately, if applicable.

1.1. SACC Manual Clauses

- 1.1.1 SACC Manual clause C9000T (2010-08-16) Pricing
- 1.1.2 SACC Manual Clause C3011T (2013-11-06) Exchange Rate Fluctuation

Section III: Certifications

Bidders must submit the certifications required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

1. Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

1.1 Technical Evaluation

To be considered responsive, a proposal must meet all of the mandatory requirements of this solicitation. For those requirements that can only be met during the performance of any resulting contract, the bidder must indicate in their proposal, their intent to comply and demonstrate how they will comply if awarded the contract. Proposals not meeting all of the mandatory requirements will be given no further consideration. Provided that all the **MANDATORY REQUIREMENTS** are met, the proposals will be evaluated on the basis of the point rated technical criteria; therefore, bidders are advised to address each area in sufficient depth to show clearly how effectively the work could be done.

1.1.1 Mandatory Technical Criteria

To be considered compliant, a bid must meet all of the mandatory evaluation criteria as indicated under Annex "E" – Bid Evaluation Criteria. Bids not meeting all of the mandatory criteria will be given no further consideration.

1.1.2 Point Rated Technical Criteria

To be considered responsive, a bid must score at least 70% overall of the points for the technical evaluation criteria which are subject to point rating. The rating is performed on a scale of 460 total points. Criteria not addressed will be given a score of 0.

1.2 Financial Evaluation

The price of the bid will be evaluated in Canadian dollars, the Goods and Services Tax or the Harmonized Sales Tax excluded, FOB destination, Canadian customs duties and excise taxes included.

2. Basis of Selection

2.1 Highest Combined Rating of Technical Merit and Price

- 2.1.1. To be declared responsive, a bid must:
- a. comply with all the requirements of the bid solicitation;
 - b. meet all mandatory technical evaluation criteria; and
 - c. Obtain the required minimum of 70 percent overall of the points for the technical evaluation criteria which are subject to point rating. The rating is performed on a scale of 460 total points.
- 2.1.2. Bids not meeting (a) or (b) or (c) will be declared non-responsive.
- 2.1.3. The selection will be based on the highest responsive combined rating of technical merit and price. The ratio will be 60% for the technical merit and 40% for the price.
- 2.1.4. To establish the technical merit score, the overall technical score for each responsive bid will be determined as follows: total number of points obtained / maximum number of points available multiplied by the ratio of 60%.
- 2.1.5. To establish the pricing score, each responsive bid will be prorated against the lowest evaluated price and the ratio of 40%.
- 2.1.6. For each responsive bid, the technical merit score and the pricing score will be added to determine its combined rating.
- 2.1.7. Neither the responsive bid obtaining the highest technical score nor the one with the lowest evaluated price will necessarily be accepted. The responsive bid with the highest combined rating of technical merit and price will be recommended for award of a contract.

The table below illustrates an example where all three bids are responsive and the selection of the contractor is determined by a 60/40 ratio of technical merit and price, respectively. The total available points equals 135 and the lowest evaluated price is \$45,000 (45).

Basis of Selection - Highest Combined Rating Technical Merit (60%) and Price (40%)

	Bidder 1	Bidder 2	Bidder 3	
Overall Technical Score	115/135	89/135	92/135	
Bid Evaluated Price	\$55,000.00	\$50,000.00	\$45,000.00	
Calculations	Technical Merit Score	115/135 x 60 = 51.11	89/135 x 60 = 39.56	92/135 x 60 = 40.89
	Pricing Score	45/55 x 40 = 32.73	45/50 x 40 = 36.00	45/45 x 40 = 40.00
Combined Rating	83.84	75.56	80.89	
Overall Rating	1st	3rd	2nd	

PART 5 - CERTIFICATIONS

Bidders must provide the required certifications to be awarded a contract. Canada will declare a bid non-responsive if the required certifications are not completed and submitted as requested.

Compliance with the certifications bidders provide to Canada is subject to verification by Canada during the bid evaluation period (before award of a contract) and after award of a contract. The Contracting Authority will have the right to ask for additional information to verify bidders' compliance with the certifications before award of a contract. The bid will be declared non-responsive if any certification made

by the Bidder is untrue, whether made knowingly or unknowingly. Failure to comply with the certifications or to comply with the request of the Contracting Authority for additional information will also render the bid non-responsive.

1. Certifications Precedent to Contract Award

The certifications listed below should be completed and submitted with the bid, but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.

1.1 Federal Contractors Program for Employment Equity - Certification

By submitting a bid, the Bidder certifies that the Bidder, and any of the Bidder's members if the Bidder is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "[FCP Limited Eligibility to Bid](http://www.labour.gc.ca/eng/standards_equity/eq/emp/fcp/list/inelig.shtml)" list (http://www.labour.gc.ca/eng/standards_equity/eq/emp/fcp/list/inelig.shtml) available from [Human Resources and Skills Development Canada \(HRSDC\) - Labour's](http://www.hrsdc.gc.ca/) website.

Canada will have the right to declare a bid non-responsive if the Bidder, or any member of the Bidder if the Bidder is a Joint Venture, appears on the "[FCP Limited Eligibility to Bid](http://www.labour.gc.ca/eng/standards_equity/eq/emp/fcp/list/inelig.shtml)" list at the time of contract award.

1.2 Former Public Servant Certification

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts awarded to FPS, bidders must provide the information required below before contract award. If the answer to the questions and, as applicable the information required have not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to provide the information. Failure to comply with Canada's request and meet the requirement within the prescribed time frame will render the bid non-responsive.

Definitions

For the purposes of this clause, "former public servant" is any former member of a department as defined in the [Financial Administration Act](#), R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- a. an individual;
- b. an individual who has incorporated;
- c. a partnership made of former public servants; or
- d. a sole proprietorship or entity where the affected individual has a controlling or major interest in the entity.

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the [Public Service Superannuation Act](#) (PSSA), R.S., 1985, c.P-36, and any increases paid pursuant to the [Supplementary Retirement Benefits Act](#), R.S., 1985, c.S-24 as it affects the PSSA. It does not include pensions payable pursuant to the [Canadian Forces Superannuation Act](#), R.S., 1985, c.C-17, the [Defence Services Pension Continuation Act](#), 1970, c.D-3, the [Royal Canadian Mounted Police Pension Continuation Act](#), 1970, c.R-10, and the [Royal Canadian Mounted Police Superannuation Act](#), R.S., 1985, c.R-11, the [Members of Parliament Retiring Allowances Act](#), R.S., 1985, c.M-5, and that portion of pension payable to the [Canada Pension Plan Act](#), R.S., 1985, c.C-8.

Former Public Servant in Receipt of a Pension

As per the above definitions, is the Bidder a FPS in receipt of a pension? **Yes** () **No** ()

If so, the Bidder must provide the following information, for all FPS in receipt of a pension, as applicable:

- a. name of former public servant;
- b. date of termination of employment or retirement from the Public Service.

By providing this information, Bidders agree that the successful Bidder's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites as part of the published proactive disclosure reports in accordance with [Contracting Policy Notice: 2012-2](#) and the [Guidelines on the Proactive Disclosure of Contracts](#).

Work Force Adjustment Directive

Is the Bidder a FPS who received a lump sum payment pursuant to the terms of the Work Force Adjustment Directive? **Yes** () **No** ()

If so, the Bidder must provide the following information:

- a. name of former public servant;
- b. conditions of the lump sum payment incentive;
- c. date of termination of employment;
- d. amount of lump sum payment;
- e. rate of pay on which lump sum payment is based;
- f. period of lump sum payment including start date, end date and number of weeks;
- g. number and amount (professional fees) of other contracts subject to the restrictions of a work force adjustment program.

For all contracts awarded during the lump sum payment period, the total amount of fees that may be paid to a FPS who received a lump sum payment is \$5,000, including Applicable Taxes.

1.3 Status and Availability of Resources

The Bidder certifies that, should it be awarded a contract as a result of the bid solicitation, every individual proposed in its bid will be available to perform the Work as required by Canada's

representatives and at the time specified in the bid solicitation or agreed to with Canada's representatives. If for reasons beyond its control, the Bidder is unable to provide the services of an individual named in its bid, the Bidder may propose a substitute with similar qualifications and experience. The Bidder must advise the Contracting Authority of the reason for the substitution and provide the name, qualifications and experience of the proposed replacement. For the purposes of this clause, only the following reasons will be considered as beyond the control of the Bidder: death, sickness, maternity and parental leave, retirement, resignation, dismissal for cause or termination of an agreement for default.

If the Bidder has proposed any individual who is not an employee of the Bidder, the Bidder certifies that it has the permission from that individual to propose his/her services in relation to the Work to be performed and to submit his/her résumé to Canada. The Bidder must, upon request from the Contracting Authority, provide a written confirmation, signed by the individual, of the permission given to the Bidder and of his/her availability. Failure to comply with the request may result in the bid being declared non-responsive.

1.4 Education and Experience

The Bidder certifies that all the information provided in the résumés and supporting material submitted with its bid, particularly the information pertaining to education, achievements, experience and work history, has been verified by the Bidder to be true and accurate. Furthermore, the Bidder warrants that every individual proposed by the Bidder for the requirement is capable of performing the Work described in the resulting contract.

1.5 Certification

By submitting a bid, the Bidder certifies that the information submitted by the Bidder in response to the above requirements is accurate and complete.

PART 6 - RESULTING CONTRACT CLAUSES

1. Security Requirement

There is no security requirement associated with the requirement.

2. Statement of Work

The Contractor must perform the Work in accordance with the Statement of Work at Annex "A".

3. Standard Clauses and Conditions

All clauses and conditions identified in the Contract by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

All reference to the Minister of Public Works and Government Services should be deleted and replaced with the Chief Executive Officer of Parks Canada. All reference to the Department of Public Works and Government Services should be deleted and replaced with Parks Canada Agency.

3.1 General Conditions

2010C (2011-05-16) General Conditions - Services (Medium Complexity) apply to and form part of the Contract.

4. Term of Contract

4.1 Period of the Contract

The period of the Contract is from Contract Award to April 30, 2016.

5. Authorities

5.1 Contracting Authority

The Contracting Authority for the Contract is:

Ron Bedard CFSP
Contracts, Procurement, and Material Management Officer
Manitoba Field Unit & Riding Mountain Field Unit
5925 Highway 9
St. Andrews, Manitoba R1A 4A8
Telephone: (204) 785-6081
Facsimile: (403) 482-5887
ron.bedard@pc.gc.ca

The Contracting Authority is responsible for the management of the Contract and any changes to the Contract must be authorized in writing by the Contracting Authority. The Contractor must not perform work in excess of or outside the scope of the Contract based on verbal or written requests or instructions from anybody other than the Contracting Authority.

5.2 Project Authority

The Project Authority for the Contract will be named at time of contract award:

The Project Authority is the representative of the department or agency for whom the Work is being carried out under the Contract and is responsible for all matters concerning the technical content of the Work under the Contract. Technical matters may be discussed with the Project Authority, however the Project Authority has no authority to authorize changes to the scope of the Work. Changes to the scope of the Work can only be made through a contract amendment issued by the Contracting Authority.

5.3 Contractor's Representative

(To be completed)

Name: _____

Title: _____

Organization: _____

Address: _____

Telephone : _____

Facsimile: _____

E-mail address: _____

Procurement Business Number (PBN) : _____

Instruction on how to obtain a Procurement Business Number (PBN)

Canadian Bidders are required to have a Procurement Business Number (PBN) before Contract award. Bidders may register for a PBN in the Supplier Registration Information service on line at the Business Access Canada Website at: <https://buyandsell.gc.ca>. For non- Internet registration, Bidders may contact the Business Access Canada InfoLine at 1-800-811-1148 to obtain the telephone number of the nearest Supplier Registration Agent.

6. Payment

6.1 Basis of Payment

The Contractor will be reimbursed for the costs reasonably and properly incurred in the performance of the Work, as determined in accordance with the Basis of Payment in Annex B, to a limitation of expenditure of \$ to be determined at time of contract award. Customs duties are included and Goods and Services Tax or Harmonized Sales Tax is extra, if applicable.

6.2 Limitation of Expenditure

6.2.1 Canada's total liability to the Contractor under the Contract must not exceed \$ to be determined at time of contract award. Customs duties are included and Goods and Services Tax or Harmonized Sales Tax is extra, if applicable.

6.2.2 increase in the total liability of Canada or in the price of the Work resulting from any design changes, modifications or interpretations of the Work, will be authorized or paid to the Contractor unless these design changes, modifications or interpretations have been approved, in writing, by the Contracting Authority before their incorporation into the Work. The Contractor must not perform any work or provide any service that would result in Canada's total liability being exceeded before obtaining the written

approval of the Contracting Authority. The Contractor must notify the Contracting Authority in writing as to the adequacy of this sum:

- (a) when it is 75 percent committed, or
- (b) four (4) months before the contract expiry date, or
- (c) as soon as the Contractor considers that the contract funds provided are inadequate for the completion of the Work,

whichever comes first.

6.2.3 If the notification is for inadequate contract funds, the Contractor must provide to the Contracting Authority a written estimate for the additional funds required. Provision of such information by the Contractor does not increase Canada's liability.

6.3 Monthly Payment

Canada will pay the Contractor on a monthly basis for work performed during the month covered by the invoice in accordance with the payment provisions of the Contract if:

- (a) an accurate and complete invoice and any other documents required by the Contract have been submitted in accordance with the invoicing instructions provided in the Contract;
- (b) all such documents have been verified by Canada;
- (c) the Work performed has been accepted by Canada.

7. Invoicing Instructions

The Contractor must submit invoices in accordance with the section entitled "Invoice Submission" of the general conditions. Invoices cannot be submitted until all work identified in the invoice is completed.

Each invoice must contain the following information:

1. Contract number,
2. Contractor's name, address and GST number
3. Period covered by the invoice
4. Work covered by the invoice

Unless otherwise indicated, the Goods and Services Tax (GST) is excluded from the Contract price. The GST, to the extent applicable, will be incorporated into all invoices and will be paid by the Government of Canada.

2. Invoices must be distributed as follows:

- (a) The original must be forwarded to the consignee.

8. Certifications

Compliance with the certifications provided by the Contractor in its bid is a condition of the Contract and subject to verification by Canada during the term of the Contract. If the Contractor does not comply with any certification or it is determined that any certification made by the Contractor in its bid is untrue, whether made knowingly or unknowingly, Canada has the right, pursuant to the default provision of the Contract, to terminate the Contract for default.

9. Applicable Laws

The Contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in the Province of Manitoba.

10. Insurance

The Contractor must comply with the insurance requirements specified in Annex "D" – Insurance Requirements. The Contractor must maintain the required insurance coverage for the duration of the Contract. Compliance with the insurance requirements does not release the Contractor from or reduce its liability under the Contract.

The Contractor is responsible for deciding if additional insurance coverage is necessary to fulfill its obligation under the Contract and to ensure compliance with any applicable law. Any additional insurance coverage is at the Contractor's expense, and for its own benefit and protection.

The Contractor must forward to the Contracting Authority within ten (10) days after the date of award of the Contract, a Certificate of Insurance evidencing the insurance coverage and confirming that the insurance policy complying with the requirements is in force. Coverage must be placed with an Insurer licensed to carry out business in Canada. The Contractor must, if requested by the Contracting Authority, forward to Canada a certified true copy of all applicable insurance policies.

11. Priority of Documents

If there is a discrepancy between the wording of any documents that appear on the list, the wording of the document that first appears on the list has priority over the wording of any document that subsequently appears on the list.

- (a) the Articles of Agreement;
- (b) 2010C (2011-05-16);
- (c) Annex A, Statement of Work;
- (d) Annex B, Basis of Payment;
- (e) Annex C Attestation and Proof of Compliance with Occupational Health and Safety (OHS)
- (f) Annex D Insurance Requirements
- (g) the Contractor's bid dated January 27, 2014

12. SACC Manual Clauses

- A1009C (2008-05-12), Work Site Access
- A2000C (2006-06-16) Foreign Nationals (Canadian Contractor)
- A2001C (2006-06-16) Foreign Nationals (Foreign Contractor)
- A7017C (2008-05-12), Replacement of Specific Individuals
- A9068C (2010-01-11), Government Site Regulations
- B6802C (2007-11-30), Government Property

12.1. SACC Manual clause [D5328C](#) (2007-11-30), Inspection and Acceptance

The Project Authority is the Inspection Authority. All reports, deliverable items, documents, goods and all services rendered under the Contract are subject to inspection by the Inspection Authority or representative. Should any report, document, good or service not be in accordance with the requirements of the Statement of Work and to the satisfaction of the Inspection Authority, as submitted, the Inspection Authority will have the right to reject it or require its correction at the sole expense of the Contractor before recommending payment.

ANNEX "A"
STATEMENT OF WORK

1. Title

Helicopter Net Gunning of Elk for Tuberculosis Testing in Riding Mountain National Park, MB

2. Background

Bovine Tuberculosis (TB) is a contagious, infectious and communicable disease caused by *Mycobacterium bovis* (*M. bovis*). In 1986, Manitoba was given certified TB free status, which meant that no case of *M. bovis* had been detected among bovines in Manitoba in the previous five years. Since 1991 instances of the infection have been detected in several cattle herds around Riding Mountain National Park (RMNP).

The Park is currently home to a population of approximately 1592 elk. A small proportion of the elk population within the Park is infected with Bovine TB. The elk capture and blood testing (approximately 1500 elk) completed to date since 2008 indicate the apparent prevalence rate of TB infected elk to be 1%. However, being present in a wild ungulate population, which migrates out of the Park onto adjacent lands, creates a serious threat to the livestock industry. The ecological impact of the disease on the elk population is unknown, although with a low prevalence, it is not believed to be population limiting. The whitetail deer population is also known to be infected at low levels.

Federal amendments to allow zoning around the Park have been passed and came into effect on January 1st, 2003. CFIA has established a special Riding Mountain TB Eradication Area around the Park to address the TB threat that currently exists in the area, consisting of approximately 50,000 cows on 700 farms. CFIA implemented new disease control measures for cattle and farmed bison in the area around the Park, including an aggressive testing program for TB. CFIA is taking this action to rapidly detect and eliminate and spread of bovine TB from the wildlife population in the vicinity of the Park to livestock herds in the area.

A task group for Bovine Tuberculosis including Manitoba Conservation, Manitoba Agriculture and Food, Parks Canada, Canadian Food Inspection Agency and in consultation with The Manitoba Cattle Producers Association and Manitoba Wildlife Federation prepared a Action Plan for Bovine TB Management in Manitoba in September 2000.

In support of this plan it is proposed for 2015/16 that a program of disease testing wild elk be continued.

2.1. Objectives

To capture, blood test, radio collar, and release up to 120 cow elk in RMNP during the winter of 2015/16, and capture, blood test, radio collar, and release up to 15 wolves during the winter of 2015/16.

3. Requirements

3.1. Tasks

The Contractor shall complete the following:

A. Cow Elk

- (a) Capture, blood test, radio collar and release up to 120 cow elk from within Riding Mountain National Park
- (b) If required, recapture, blood test, euthanize and remove (sling) up to 30 elk from within Riding Mountain National Park

Scheduled Operations
The Contractor must:

- (a) Control and ensure safe capture, drawing blood, radio collaring, and releasing an estimated 120 cow elk by net gunning from a helicopter in Riding Mountain National Park per the proposed schedule

B. Wolves

- (a) Capture, blood test, radio collar and release up to 15 wolves from within Riding Mountain National Park

Scheduled Operations

The Contractor must:

- (b) Control and ensure safe capture, drawing blood, radio collaring, and releasing an estimated 15 wolves by net gunning from a helicopter in Riding Mountain National Park per the proposed schedule

C. Scheduling

Phase 1: Starting December 1, 2015 – December 16, 2015:

Capture, blood test, radio collar and release an estimated 60 cow elk and 8 wolves.

Phase 2: Starting January 5, 2016 – January 29, 2016:

Capture, blood test, radio collar and release an estimated 60 cow elk and 7 wolves.

Phase 3: Starting March 01, 2016 – April 15, 2016:

Recapture, blood test, euthanize and remove (sling) up to an estimated 30 cow elk as required.

3.2. Technical Requirements

The Contractor must:

- (a) Provide professional personnel and equipment (helicopter and net gunning equipment) for the tracking, capturing, slinging of euthanized elk to a nearby Resource Conservation Station and/or staging area, and other specified handling procedures of elk within Riding Mountain National Park.
- (b) Perform pre-capture surveillance to locate elk if Parks Canada is not able to perform.
- (c) Follow the protocol as indicated in Appendix "A1" in a manner which reduces the risk of injury and stress to the animals. Euthanized animals must be slung out to a nearby Resource Conservation Station and/or staging area.
- (d) Ensure that helicopter and aircrew provided to perform the Work meet the minimum requirements indicated in Appendix "A2".
- (e) If unable to capture animals because of terrain, availability of animals or other unforeseen problems after two (2) hours of flying time, immediately inform the Parks Canada Representative with a view to

seek help to enable the agreement to be completed or renegotiated.

- (f) Follow flight lines established by parks staff to and from capture areas.

4. Constraints

All services provided by the Contractor are subject to the approval of and acceptance by the Parks Canada Project Authority, who shall have the right to inspect the aircraft, equipment and documents related to the air worthiness of the aircraft and operational documentation including flight plans or flight notification, loading records, logs, air crew log books, air carrier licenses and pilot in order to ensure compliance with the terms and conditions of the contract. If the Contractor is unavailable due to failure to meet the inspection, the Contractor shall be responsible for any additional expenses incurred by Parks Canada to provide the necessary services that the Contractor has been unable to comply with.

5. Travel and Living Expenses

All travel and living expenses incurred in the performance of the Work will not be reimbursed by Parks Canada and are to be included in the Contractor's firm pricing.

6. Client Support

Parks Canada shall:

- (a) Provide all fuel from the commencement of capture activities to the completion of capture activities in the Riding Mountain National Park.
- (b) Provide all collars, blood testing equipment, and ear tags required to perform the Work.
- (c) Provide a fixed wing plane to perform pre-capture surveillance to locate elk and to monitor the capture operation providing weather conditions are favourable for fixed wing flying. Potential herds will be located and GPS locations taken and passed onto the capture crew. Elk herds with collared elk will be monitored and locations passed onto the capture crew to avoid collaring additional animals in the herd.
- (d) Provide a hand held VHF radio for communications separate from the helicopter.

6.1. Meetings

The Contractor must:

- (a) Participate in a pre-capture meeting prior to commencing the Work and post-capture meetings at the end of each day with the Parks Canada Project Authority.

Parks Canada shall:

- (a) Arrange for and participate in the pre-capture meeting prior to commencing the Work and post-capture meetings at the end of each day with the Contractor.

7. Deliverables

The Contractor must complete all the Work on or before May 15, 2016.

All enquiries during the solicitation period must be submitted in writing to the Contracting Authority below no later than ten (10) calendar days before the bid closing date:

R Bedard, CFSP
Contracts, Procurement and Material Management Officer
Manitoba & Riding Mountain Field Units

APPENDIX "A1"

ELK HANDLING PROTOCOL AND AERIAL NET GUNNING PROCEDURES

1. Current Net Gunning Procedures and Drug Protocols

- Chase time will not exceed three (3) minutes.
- Captured animals will be physically restrained to prevent thrashing.
- If there are any signs of severe stress observed, the animal will be released immediately.
- A blindfold will be applied over the eyes to reduce stress by visual stimuli.
- Noise will be minimal throughout handling to reduce stress by auditory stimuli.
- A minimum of 25 ml of blood will be collected for hematology (5 ml in EDTA vacutainer) and serum biochemistry (20 ml in sterile vacutainers).
- Hobbles will be applied to the legs of animals to prevent kicking.
- Animal will be sexed and aged based on physical characteristics and dentition pattern.
- Animal will be fitted with either a VHF, GPS radio collar or ear telemetry device.
- A single ear tag will be applied to the animal.
- Physiological function (respiratory rate, respiratory sounds, pulse rate, mucous membrane color, capillary refill time, and rectal temperature) will be monitored throughout handling every five (5) to ten (10) minutes.
- Animal will be physically examined for injuries and abnormalities.
- A body condition score based on palpation of dorsal spinal processes will be assigned.
- Net and hobbles will be removed prior to the animal being released.
- Animal will be released in those cases where radio collars are affixed to the animals.
- Total handling time will be recorded, but the anticipated maximum restraint period is 20 minutes.
- In the event of a capture or handling related death, a field necropsy will be performed and select tissues (e.g., brain, heart, lung, liver, kidney, spleen, lymph node, muscle, etc.) will be sampled and frozen for submission to the CCWHC for histopathological examination. Any injured animals will be assessed by a park warden and/or veterinarian. If the animal cannot function in a normal manner, it will be euthanized and slung out to a nearby Warden Station
- If mortality rate exceeds 2%, the capture operation will be stopped and a complete review of the operation will be conducted.
- A form will be supplied to record capture and drugging information.

2. Basis for Recommendations

- **Hematology and serum biochemistry** – will enable evaluation of overall health status and provide potential to detect any underlying illness that may compromise recovery from capture and handling.
- **Body condition score** – will be an important factor in the assessment of overall health status.
- **Collection of tissue samples during necropsy** – microscopic examination of tissues collected at necropsy (i.e. histopathology) is invaluable in determining cause of death and detecting underlying illness.

3. Capture Myopathy

Any animals presenting symptoms of capture myopathy, (stiffness in the limbs, unable to get up after lying down) will be euthanized. Care will be taken to minimize chase and stress during handling thus reducing the chance of capture myopathy. These animals will be slung out to a nearby Warden Station.

4. Hypothermia

Ruminants cannot lose body heat efficiently and are therefore susceptible to excessive body heat production. To minimize the risk of animals becoming hypothermic, temperature limits have been set for capture operations. If temperatures rise above 10°C or fall below -25°C, capture operations may be suspended.

5. Bloat

If an animal changes food sources, or experiences a physical interference with part of the digestive tract, over-distension of the rumen and reticulum may result. Captured animals should be in sternal recumbency position or lateral recumbency with left side down to place pressure on the rumen and aid in

expelling gas. The head should be elevated above the rumen to avoid regurgitation or aspiration of rumen into the lungs. If bloat is observed (extended abdomen), the animal should be immediately released.

6. Euthanasia

A standard criteria set out by The Canadian Council on Animal Care (1993), will be used in the event an animal has to be euthanized. The standard includes: 1) death without signs of panic or distress, 2) minimum time to loss of consciousness, 3) safety of personnel, 4) minimum ecological and environmental impact, 5) simple mechanical equipment that is low maintenance, 6) a location that is remote and separate from other animals.

WOLF HANDLING PROTOCOL AERIAL NET GUNNING PROCEDURES

1. Current Net Gunning Procedures and Drug Protocols

- Up to 15 free ranging wolves will be captured individually by net gunning.
- Wolves will be captured in open areas with snow to inhibit movement.
- Chase times will be limited to 10 minutes.
- Captured animals will be muzzled, blindfolded, and hobbled prior to removing the net.
- Wolves will be sexed, weighed, body lengths measured, a scat sample taken and 30 cc of blood taken from the saphenous vein for long term population genetics and disease research.
- Vital rates (temperature, pulse, respiration, blood pressure) will be monitored.
- Animals will be physically examined for injuries and abnormalities.
- If there are any signs of severe stress, the observed animal will be released immediately.
- Animals will be fitted with a GPS radio collar.
- Total handling time will be recorded, but the anticipated maximum restraint period is 15 minutes.
- In the event of a capture or handling death, a necropsy will be performed and specific tissues will be sampled and submitted to the Canadian Cooperative Wildlife Health Centre for examination. Any injured animal will be assessed by a veterinarian, and if the animal cannot function in a normal manner it will be euthanised as outlined below.
- A form will be supplied to record capture information.

2. Basis for Recommendations

- **Hematology and serum biochemistry** – will enable evaluation of overall health status and provide potential to detect any underlying illness that may compromise recovery from capture and handling.
- **Body condition score** – will be an important factor in the assessment of overall health status.
- **Collection of tissue samples during necropsy** – microscopic examination of tissues collected at necropsy (i.e. histopathology) is invaluable in determining cause of death and detecting underlying illness.

3. Capture Myopathy

Any animals presenting symptoms of capture myopathy, (stiffness in the limbs, unable to get up after lying down) will be euthanized. Care will be taken to minimize chase and stress during handling thus reducing the chance of capture myopathy. These animals will be slung out to a nearby Warden Station.

4. Euthanasia

A standard criteria set out by The Canadian Council on Animal Care (1993), will be used in the event an animal has to be euthanized. The standard includes: 1) death without signs of panic or distress, 2) minimum time to loss of consciousness, 3) safety of personnel, 4) minimum ecological and environmental impact, 5) simple mechanical equipment that is low maintenance, 6) a location that is remote and separate from other animals.

APPENDIX “A2” AIRCREW AND AIRCRAFT REQUIREMENTS

1. Aircrew Requirements

Pilot and aircrew manifest, qualifications and documentation must be forwarded to the Project Authority a minimum of five (5) days prior to the crew's arrival. If it is necessary to replace any personnel (e.g. due to timing out, commitments, etc.), the replacement personnel must meet the requirements of the Contract.

The Contractor must provide pilots having the appropriate license and endorsements with the following qualifications/experience:

- (a) minimum 2,000 hours helicopter flight time.
- (b) minimum 500 hours flight time on class and 50 hours on type in the last twelve months prior to the commencement date of the contract.
- (c) minimum 200 hours experience in large ungulate capture (including large bulls with antlers) with use of net guns.
- (d) minimum 100 hours experience in telemetry work locating collared animals.

The Contractor must provide additional personnel having the following qualifications/experience:

- (a) minimum 100 hours experience in large ungulate capture (including large bulls) operations with net gun.

All personnel assigned to the Contract must be in accordance with the above mandatory requirements. In the event that it becomes necessary to activate back-up or replacement personnel, prior authorization, confirmed in writing, must be obtained from the Project Authority.

Extra crews are to be made available when crew duties and flight times exceed limitations in Transport Canada Regulations.

2. Aircraft Requirements

The aircraft provided for the Work under the Contract must meet the following minimum requirements:

- (a) Duly certified and maintained in accordance with all applicable Transport Canada Regulations.
- (b) The Contractor shall provide a helicopter that is authorized by Transport Canada to be used for wildlife capture commercial flying services.
- (c) Helicopter type that is suitably equipped to provide net gunning flying services as follows:
 - i. Capable of performing capture work with the pilot plus two additional personnel on board.
 - ii. Suitable capture equipment including skid mounted or hand held net guns, nets and ammunition.
 - iii. Animal handling and sling loading equipment including long lines and nets.
 - iv. An operable electric cargo hook on the belly.
 - v. Suitable refueling and filtering system.
 - vi. On board telemetry gear for locating collared elk, including attached antenna and receiver.
 - vii. Any additional equipment required by Transport Canada Regulations.

3. Communications Equipment Requirements

The aircraft provided for the Work under the Contract must have the following:

- (a) One VHF/AM radio transmitter-receiver with frequencies of 166.05 TX/Rec Simplex, 166.65 TX and 166.05 receive duplex and TX Tone 151.4.
- (b) Provision for operational capabilities of both radio and hot-mic intercom, through headset/boom microphones, by both pilot and front seat passenger.
- (c) Unserviceable radio equipment and accessories may be considered as rendering the aircraft unserviceable for operational use.

4. Directional, Safety and Emergency Equipment Requirements

The aircraft provided for work under this contract must have the following:

- (a) One (1) Aircraft Direction Finder (ADF) and/or VORTEC (VOR)
- (b) One (1) Emergency Locator Transmitter (ELT).
- (c) One (1) Global Positioning System (GPS), Trimble Trans Pack or equivalent.

5. Other Equipment

In addition to the above noted, the aircraft shall be equipped with any and all other standard safety, survival gear and emergency equipment as required by Transport Canada Regulations and the Canadian Aircraft Regulations (CARS).

6. Inspection

All services provided by the Contractor will be subject to the approval of and acceptance by the Project Authority, who shall have the right to inspect the aircraft, its equipment, and documents relating to the air worthiness of the aircraft, and operational documentation including flight plans or flight notification, loading records, logs, aircrew log books, air carrier licenses and dangerous goods certificates of company and pilot in order to ensure compliance with the terms and conditions of this agreement. Inspection shall include presentation of certificate of registration or lease agreement; current certificate of airworthiness; and journey and technical log book.

If the Contractor is unavailable due to failure to meet final inspection criteria at the start-up date, the Contractor shall also be responsible for any additional expenses incurred by Parks Canada to provide the necessary services that the Contractor has been unable to comply with.

**ANNEX “B”
BASIS OF PAYMENT**

The prices below are not inclusive of GST/HST (as applicable), are in Canadian Dollars, F.O.B. Destination, and are for the provision of all costs (including but not limited to labour, materials, supplies, equipment, transportation, travel and living expenses and helicopter and fuel costs to/from Riding Mountain National Park) as required to perform the Work in accordance with the Statement of Work at Annex “A” except for those items provided by Parks Canada.

Item	Description	Unit of Measurement	Price Per Unit (a)	Estimated Quantity (b)	Estimated Total (c) = (a) x (b)
(A)	Aircraft mobilization and demobilization costs to and from the proponent’s location to Wasagaming, MB	Lump Sum	\$	3 (return trips)	\$ (A)

Parks Canada will provide all rotary wing aircraft fuel from the commencement of capture activities to the completion of capture activities in Riding Mountain National Park.

Item	Description	Unit of Measurement	Price Per Unit (a)	Estimated Quantity (b)	Estimated Total (c) = (a) x (b)
1.	All inclusive cost per animal to capture and radio collar OR euthanize and remove (sling) elk	Per Animal	\$	150	\$
2.	All inclusive cost per animal to capture and radio collar wolves	Per Animal	\$	15	\$
3.	All inclusive cost per day for no-fly days for capture team and helicopter (e.g. weather prohibiting but excluding Force Majeure events). Where no price applies indicate “0” or “nil”.	Per Day	\$	3	\$
(B)	Total Estimated Capture Costs (B) = 1. + 2. + 3.				\$ (B)

The items below will be used for amendment purposes only, as required, during the performance of the Work.

Item	Description	Unit of Measurement	Price Per Unit (a)	Estimated Quantity (b)	Estimated Total (c) = (a) x (b)
3.	All inclusive cost per hour for rotary wing aircraft flight time	Per Hour	\$	10	\$

4.	All inclusive cost per day for no-fly days in excess of estimated quantity for item 3. above for capture team and helicopter (e.g. weather prohibiting but excluding Force Majeure events).	Per Day	\$	1	\$
(C)	Total Estimated Amendment Costs (C) = 3. + 4.				\$ (C)

(D)	Total Evaluated Financial Bid Price (D) = (A) + (B) + (C)				\$ (D)
-----	--	--	--	--	--------

Notes:

(a) In conducting its evaluation of the bids, Canada may, but has no obligation to correct any error in the extended pricing of bids by using unit pricing and any error in quantities in bids to reflect the quantities stated in the bid solicitation. In the case of error in the extension of prices, the unit price will govern.

Flight times for items 1 & 2 are based on a capture flight time of 30 minutes. Capture flight times exceeding 30 minutes will be billed at the rate indicated under 4. The hourly rate will be prorated to the nearest hour.

**ANNEX “C”
 ATTESTATION AND PROOF OF COMPLIANCE WITH OCCUPATIONAL HEALTH AND SAFETY
 (OHS)**

Submission of this completed form, satisfactory to Parks Canada, is a condition of gaining access to the work place.

Instructions:

Prime contractor must sign this form for all projects undertaken at Parks Canada work places.

This form is to be administered by the Project Manager and completed by the Prime Contractor **AFTER** contract award.

Parks Canada recognizes that federal OHS legislation places certain specific responsibilities upon Parks Canada as owner of the work place. In order to meet those responsibilities, Parks Canada is implementing a contractor safety regime that will ensure that roles and responsibilities assigned under Part II of the *Canada Labour Code* and the *Canada Occupational Health and Safety Regulations* are implemented and observed when involving contractor(s) to undertake works in Parks Canada work places.

Parks Canada Responsible Authority/Project Lead	Address	Contact Information
Project Manager

Subcontractor(s) (add additional fields as required)		

Location of Work

General Description of Work to be Completed
--

Mark "Yes" where applicable.

	A meeting has been held to discuss hazards and access to the work place and all known and foreseeable hazards have been identified to the contractor and/or subcontractor(s)
	The contractor and/or its subcontractor(s) will comply with all federal and provincial/territorial legislation and Parks Canada's policies and procedures, regarding occupational health and safety.
	The contractor and/or its subcontractor(s) will provide all prescribed safety materials, equipment, devices and clothing.
	The contractor and/or its subcontractor(s) will ensure that its employees are familiar with and use all prescribed safety materials, equipment, devices and clothing at all times.
	The contractor and/or its subcontractor(s) will ensure that its activities do not endanger the health and safety of Parks Canada employees.
	The contractor and/or its subcontractor(s) has inspected the site and has carried out a hazard assessment and has put in place a health and safety plan and informed its employees accordingly, prior to the commencement of the work.
	Where a contractor and/or its subcontractor(s) will be storing, handling or using hazardous substances in the work place, it will place warning signs at access points warning persons of the presence of the substances and any precautions to be taken to prevent or reduce any hazard of injury or death.
	The contractor and/or its subcontractor(s) will ensure that its employees are instructed in respect of any emergency procedures applicable to the site.

I, _____ (contractor), certify that I have read, understood and attest that my firm, employees and all sub-contractors will comply with the requirements set out in this document and the terms and conditions of the contract.

ANNEX “D” INSURANCE REQUIREMENTS

1 Commercial General Liability Insurance

1.1 .The Contractor must obtain Commercial General Liability Insurance, and maintain it in force throughout the duration of the Contract, in an amount usual for a contract of this nature, but for not less than **\$ 2,000,000** per accident or occurrence and in the annual aggregate.

1.2 The Commercial General Liability policy must include the following:

- (a) Additional Insured: Canada is added as an additional insured, but only with respect to liability arising out of the Contractor's performance of the Contract. The interest of Canada should read as follows: Canada, as represented by Parks Canada Agency.
- (b) Bodily Injury and Property Damage to third parties arising out of the operations of the Contractor.
- (c) Products and Completed Operations: Coverage for bodily injury or property damage arising out of goods or products manufactured, sold, handled, or distributed by the Contractor and/or arising out of operations that have been completed by the Contractor.
- (d) Personal Injury: While not limited to, the coverage must include Violation of Privacy, Libel and Slander, False Arrest, Detention or Imprisonment and Defamation of Character.
- (e) Cross Liability/Separation of Insureds: Without increasing the limit of liability, the policy must protect all insured parties to the full extent of coverage provided. Further, the policy must apply to each Insured in the same manner and to the same extent as if a separate policy had been issued to each.
- (f) Blanket Contractual Liability: The policy must, on a blanket basis or by specific reference to the Contract, extend to assumed liabilities with respect to contractual provisions.
- (g) Employees and, if applicable, Volunteers must be included as Additional Insured.
- (h) Employers' Liability (or confirmation that all employees are covered by Worker's compensation (WSIB) or similar program)
- (i) Broad Form Property Damage including Completed Operations: Expands the Property Damage coverage to include certain losses that would otherwise be excluded by the standard care, custody or control exclusion found in a standard policy.
- (j) Notice of Cancellation: The Insurer will endeavour to provide the Contracting Authority thirty (30) days written notice of policy cancellation.
- (k) If the policy is written on a claims-made basis, coverage must be in place for a period of at least 12 months after the completion or termination of the Contract.
- (l) Owners' or Contractors' Protective Liability: Covers the damages that the Contractor becomes legally obligated to pay arising out of the operations of a subcontractor.
- (m) Litigation Rights: Pursuant to subsection 5(d) of the *Department of Justice Act*, S.C. 1993, c. J-2, s.1, if a suit is instituted for or against Canada which the Insurer would, but for this clause, have the right to pursue or defend on behalf of Canada as an Additional Named Insured under the insurance policy, the Insurer must promptly contact the Attorney General of Canada to agree on the legal strategies by sending a letter, by registered mail or by courier, with an acknowledgement of receipt.

For the province of Quebec, send to:

Director Business Law Directorate,
Quebec Regional Office (Ottawa),
Department of Justice,
284 Wellington Street, Room SAT-6042,
Ottawa, Ontario, K1A 0H8

For other provinces and territories, send to:

Senior General Counsel,
Civil Litigation Section,
Department of Justice,
234 Wellington Street, East Tower
Ottawa, Ontario K1A 0H8

A copy of the letter must be sent to the Contracting Authority. Canada reserves the right to co-defend any action brought against Canada. All expenses incurred by Canada to co-defend such actions will be at Canada's expense. If Canada decides to co-defend any action brought against it, and Canada does not agree to a proposed settlement agreed to by the Contractor's insurer and the plaintiff(s) that would result in the settlement or dismissal of the action against Canada, then Canada will be responsible to the Contractor's insurer for any difference between the proposed settlement amount and the amount finally awarded or paid to the plaintiffs (inclusive of costs and interest) on behalf of Canada.

2 Aviation Liability Insurance

2.1 The Contractor must obtain Aviation Liability Insurance for Bodily Injury (including passenger Bodily Injury) and Property Damage, and maintain it in force throughout the duration of the Contract, in an amount usual for a contract of this nature, but for not less than **\$ 5,000,000** per accident or occurrence and in the annual aggregate.

2.2 The Aviation Liability policy must include the following:

- (a) Additional Insured: Canada is added as an additional insured, but only with respect to liability arising out of the Contractor's performance of the Contract. The interest of Canada should read as follows: Canada, as represented by Parks Canada Agency.
- (b) Notice of Cancellation: The Insurer will endeavour to provide the Contracting Authority thirty (30) days written notice of policy cancellation.
- (c) Cross Liability/Separation of Insureds: Without increasing the limit of liability, the policy must protect all insured parties to the full extent of coverage provided. Further, the policy must apply to each Insured in the same manner and to the same extent as if a separate policy had been issued to each.
- (d) Contractual Liability: The policy must, on a blanket basis or by specific reference to the Contract, extend to assumed liabilities with respect to contractual provisions.
- (e) Employees and, where applicable, Volunteers must be included as Additional Insured.
- (f) Aviation Passenger Liability and inclusive Medical Payments: If sub-limits are applicable to Contractor's policy conforming to international carriage agreements or otherwise, such sub-limits must in any event be, not less than, \$300,000 per person. The per accident limit should be no less than \$300,000 multiplied by the number of passengers.

- (g) If the policy is written on a claims-made basis, coverage must be in place for a period of at least 12 months after the completion or termination of the Contract.
- (h) Employers Liability (unless we have confirmation that all employees are covered by Worker's compensation (WSIB) or similar program).
- (i) Non-owned Aircraft Liability: To protect the Contractor for liabilities arising from its use of aircraft owned by other parties including Canada

ANNEX “E”
Bid Evaluation Criteria

To be considered compliant, a bid must meet all of the mandatory evaluation criteria as indicated under Annex “E” – Bid Evaluation Criteria. Bids not meeting all of the mandatory criteria will be given no further consideration.

1.1.1	Mandatory Technical Criteria
A	Personnel Requirements
1	PILOT: Minimum 2,000 hours helicopter flight time.
2	AIRCREW: Minimum 500 hours flight time on class and 50 hours on type in the last 12 months prior to the commencement date of the contract.
3	AIRCREW: Minimum 200 hours experience for the pilot in large ungulate capture with use of net guns.
4	AIRCREW: Minimum 100 hours experience in telemetry work locating collared animals.
5	OTHER PERSONNEL: Minimum 100 hours experience in large ungulate capture (including large bulls) operations with net gun.
B	Aircraft Requirements
1	Authorized by Transport Canada to be used for wildlife capture commercial flying service in Canada
2	Maintained in accordance with all applicable Transport Canada Regulations
3	Capable of performing capture work with the pilot plus two additional personnel on board.
4	Suitable capture equipment including skid mounted or hand held net guns, nets and ammunition.
5	Animal handling and sling loading equipment including long lines and nets.
6	An operable electric cargo hook on the belly.

7	Suitable refueling and filtering system.
8	On board telemetry gear for locating collared elk, including attached antenna and receiver.
9	Any additional equipment required by Transport Canada Regulations.
C	Communications Equipment Requirements
1	One VHF/AM radio transmitter-receiver with frequencies of 166.05 TX/Rec Simplex, 166.65 TX and 166.05 receive duplex and TX Tone 151.4.
2	Operational capabilities of both radio and hot-mic intercom, through headset/boom microphones, by both pilot and front seat passenger.
D	Directional, Safety, and Emergency Equipment Requirements
1	One (1) Aircraft Direction Finder (ADF) and/or VORTEC (VOR).
2	One (1) Emergency Locator Transmitter (ELT).
3	One (1) Global Positioning System (GPS), Trimble Trans Pack or equivalent.
E	References
1	Provide Letters of Reference for 3 (three) recently (within the past 2 years) completed net gun capture work by the contracting company (with a minimum of 1 reference for completed net gun capture work within the last 12 months).

1.1.2 Point Rated Technical Criteria

Criteria not addressed will be given a score of 0.

Item	Description	Points
R.1	Personnel Requirements	360
1.1	How many hours Helicopter flight time does the pilot who will be working on this project have?	

	<hr/> <p>Hours</p> <p>2000-2999 hours</p> <p>3000-3999 hours</p> <p>4000-4999 hours</p> <p>> 5000 hours</p>	<p>Points</p> <p>15</p> <p>30</p> <p>45</p> <p>60</p>	<p>-----</p> <p>60</p>
